FORTRESS AND TEMPLES ON THE HILL

Chitradurga Fort or as the British called it Chitaldoorg, straddles several hills and a peak overlooking a flat valley in the town of Chitradurga. Chitradurga owes its name to Chitrakaladurga, or Picturesque castle. This is a massive fortress on top of granite hills that rises dramatically from the ground. The first instance of fortification at Chitradurga is by Kamageti Timmanna Nayaka around 1562 A.D. Obanna Nayaka, also known as Madakari Nayaka, declared his independence from Vijayanagara Empire and wrested the fort. From 1620 A.D. onwards Chitradurga continued to be held by his successors until 1779 A.D. when it was taken over by Haider Ali. Coming under the class of Giridurga, the fort of Chitradurga occupies a granatoid hillock. Popularly known as *'Yelu Suttina Kote'*, the fort has seven lines of defence with bastions of various shapes at regular intervals of which three are at the foot of the hill and the remaining four over the hill.

The outermost wall has four gateways, one on each side. Zig-zag entrances are provided through these seven lines of fortification with batteries and magazines. The height of the wall of each line varies from 8 to 15 mt. At places brick walls of 1.21 to 1.82 mt. are also used to add to the height. The three outer walls of defence are provided with deep broad moats. The fortification once had nineteen gateways, thirty eight postern-gates, thirty five secret entrances.

Much of the fort was strengthened by Haider Ali and Tipu Sultan in stone. Inside these fortifications, there are shrines dedicated to Sampige Siddeshwara, Hidimbeswara, Phalguneshwara, Gopalakrishna, Ganesa, Anjaneya and Ekanatheshwari. Secular structures like Murugharajendra Matha and subsidiary structures like granary, oil tanks and massive grinding stones are of the post-Vijayanagara period. The ruins of palaces built in mud are also encountered. To facilitate the collection of rain water, there were many natural and stone built tanks.

FOREWORD

1. The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/ PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library,

Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sri T. K. Anil Kumar, Director of Census Operations, Karnataka. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Sri Deepak Rastogi present Addl.RGI. Sri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Sri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Sri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division**.** I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi
Dated : 16th June,2014

PREFACE

Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India has traced the history of the district Census Handbooks in the foreword to the 2011 series of the District Census Handbooks (DCHBs). He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2011 Census. It also contains a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A - contains information regarding each village and town (Village Directory and Town Directory – non census data collected from various sources) and Part B – containing the population data collected during 2011 Census - the Primary Census Abstract (PCA). The data published in Part B was collected during February-March 2011 in the Population Enumeration.

The process of data collection for the Village Directory and Town Directory (Part A) commenced in 2009 and the reference date is 31.12.2009. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the District Census Handbooks 2001. The Household Schedules, which were canvassed to collect the population data during 2011 Census, were scanned and data captured was processed electronically through ICR (Intelligent Character Recognition) Technology. The Primary Census Abstract (PCA) was generated centrally on the computers by the Office of the Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledges their co-operation.

I take this opportunity to offer my thanks to Dr. C.Chandramouli,I.A.S. the Registrar General & Census Commissioner, India for his valuable guidance and support. I appreciate the supervision and support given by Sri N. Manjini, Joint Director and also thankful to all the officers and officials of this Directorate who have been relentlessly involved in the compilation of this volume.

I am highly grateful to Dr. Pratibha Kumari, Assistant Registrar General (SS), Dr. R.C.Sethi, Ex-Addl. RGI, Sri Deepak Rastogi Addl. RGI. for their guidance and Sri A.P. Singh, Deputy Registrar General (Map), who provided the technical guidance in the preparation of maps. My thanks are also due to Sri A.K. Arora, Joint Director of Data Processing Division for generating the final formats of this publication under the overall supervision of Sri M.S.Thapa, Addl. Director (EDP), ORGI.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)-Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

Chitradurga district has a hoary past dating back to the pre-historic and legendary times. According to a tradition, it was near the Jatinga Rameshvar hill of this district that Jatayu challenged Ravana when, having abducted Sita, the latter was passing through this part of the country with her on his way to Lanka. According to another legend, during the period of their exile the Pandava brothers and their mother Kunti stayed for some time near Chitradurga hills. At that time, the Chitradurga hill was the abode of Hidimbasura - a cannibal, who, along with his sister Hidimbi, was a source of great terror to the people of the neighbourhood. The turn of events that followed the arrival of Pandavas led to a duel between Bhima and Hidimbasura in which the latter was slain. Bhima then married Hidimbi who vowed to give up her evil ways and had by her a son named Ghatotkacha.

Some of the pot-shreds discovered in the pre-historic sites of the district are stated to be similar to those found in the Indus Valley, Sumer and Crete of the 3rd millennium B.C. Further, the ancient local culture which has been designated as "Roppa Culture" is said to be similar to the camiguin culture of France belonging to the period from 8000 B.C. to 6000 B.C. Chandravalli Valley which is located immediately to the west of the fortified hill of Chitradurga is supposed to have got its name from Chandrahasa the pious king of Kuntala Desha. Neoliths discovered in the water courses and at Baralagondi and Neralagondi villages located close to this valley have established the fact that this valley was inhabited by man during the Neolithic period. Scientific excavations in Chandravalli Valley have yielded lead coins belonging to the Satavahanas, silver coins of Roman origin, and ornaments of gold, silver and copper besides an abundance of painted and polished pottery. Traces of walls constructed out of large-sized bricks of still ancient origin are stated to be faintly visible here and there in the cuttings. These findings and the rock inscriptions of Mayura Sharma Kadamba discovered in this valley amply indicate that a prosperous township existed at this site during the period of Satavahanas and the early Kadambas. The discovery of Ashoka edicts on rocks near Brahmagiri of Molakalmuru taluk by B.L.Rice in 1892 revealed that the Maurya empire extended in the south at least upto Chitradurga district. The Mauryan rule was followed by that of the Satavahanas (230 B.C. to 220 A.D.). That Chitradurga was an important place during that period is borne out by the Satavahana coins discovered at Chandravalli Valley as also by the inscriptions found at places like Malavalli and Banavasi.

After the downfall of the Satavahana rule, their empire disintegrated into numerous principalities. Chitradurga district came under the sway of the Kadambas of Banavasi. The earliest Kadamba inscription found in the district is in Chandravalli Valley an, on Palaeolithic grounds it is assigned to 258 A.D. This inscription records the construction of a tank at this place by Mayura Sharma, the founder of the Kadamba dynasty and also mentions that Mayura Sharma had defeated the Traikutas, Abiras, Pallavas, Pariyatrikas, Sakasthomas, Sayindakas, Punnatas and Mokaris. With Banavasi as their principal capital, the Kadambas administered a vast territory as independent and powerful rulers till they were subjugated by Kirtivarman I (560-597 A.D.) of the Chalukya dynasty. However, the Kadambas were allowed to rule their territories under the suzerainty of the Chalukya monarchs. With the advent of the Chalukyas in mid-sixth century, for the next 300 years the area comprised in Chitradurga district seems to have been plunged into a state of perpetual unrest arising out of the struggle for power between the Chalukyas of Badami, the Pallavas of Kanchi and Pandyas of Madurai. All the three rose into prominence in South India more or less at the same time and engaged themselves in intermittent warfare, each seeking constantly to extend its territories at the cost of that of its neighbours. However, by the middle of 8th century, Rashtrakutas of Malkhed rose to power and established their supremacy over the Chalukyas. During this period, the area comprised in Chitradurga distict formed part of Nolambavadi 32000 and continued to be a bone of contention among the imperial powers. The principal local dynasties that administered this region as feudatories were the Nolambas of Henjeru (from 700 to 1050 A.D.) and the Pandyas of Uchchangi (from about 1073to 1183 A.D.)

The earliest Rashtrakuta inscriptions in the district belong to the reign of Govinda II (775-780 A.D.). According to these inscriptions, Govinda II had as his feudatories the

son (Charu-Ponnera) and the grandson (Pallavamalla) of Simhapota, a Nolamba Chief who was subordinate to the Ganga kings. The earliest Nolamba records in the district go back to the period of this Simhapota who is introduced in the three of the inscriptions found in Challakere taluk. Krishna II (880-914 A.D.) and Krishna III (940-966 A.D.) are the other prominent Rashtrakuta Kings who have left behind several inscriptions pertaining to their respective periods. Dilipa or Iriva-Nolamba (942-966 A.D.) was the Nolamba feudatory under Krishna III. In about 973 A.D., Karakka II, the last Rashtrakuta king was dethroned by Tailapa of the Chalukyan Dynasty (973-997 A.D.). Tailapa not only regained all territories of his forefathers but also extended his kingdom in all directions. So long as the Rashtrakutas were supreme and strong, the Nolambas were secure under their protection. The moment this power became weak, the Nolambas began to feel the impact of the expansionist attempts of other major powers. Thus, in 974 A.D., the Nolambas were overrun by the Ganga king Marasimha, who, after the conquest, actually ruled over the Nolambavadi country for some time. Next, when the Cholas began their northward thrust, there were conflicts between the Cholas and the Nolambas. However, after the revival of the Chalukayan power in the north (and in the Nolambavadi regions in the 1015 A.D.) the Nolambas switched over their loyalties to the Chalukyas and with this change in allegiance they moved their capital to Kampili located on the banks of Tungabhadra to the west of Bellary.

The Hoysala inscriptions found in the district belong to the reign of Ballala II (1173-1220 A.D.) and of later kings. However, since Nolambavadi has been mentioned as one of the provinces ruled by Vishnuvardhana (1106-1141 A.D) it is evident that at least a part of Chitradurga district formed part of the Hoysala Kingdom. The Yadavas of Devagiri were the main rivals of the Chalukya and contending for the possession of the Chalukya and Kalachuri kingdoms. Up to the period of Ballala II i.e., about 1220 A.D., the Hoysalas were supreme. Later, the Yadavas gained an upper hand and the Hoysalas were forced to retire to the south of the Tungabhadra. During the period 1210-1247 A.D., a part of Chitradurga district, more or less corresponding to the present Davanagere taluk came under the rule of Yadavas. The earliest Yadava inscription found in the district is in Kadlabalu in Davanagere taluk and it is dated in 1250 A.D. The supremacy of the Hoysalas and the Yadavas came to an end when these two powers were conquered by the invading Muslim forces from the North under the leadership of Malik Kafur and Mohammed- Bin -Tughlaq. Chitradurga came under the sway of the Vijayanagara empire in the 14th century. The earliest Vijayanagara inscription found in the district is dated in 1354 A.D. During the next two hundred years, the Vijayanagara kings, who exercised paramount powers, had bestowed sundry tracts of their kingdom on the vassal chiefs, bearing various titles, for administrative convenience. Such of the chiefs or palegars as were in the northern part of the kingdom were controlled directly from the capital i.e., Vijayanagara, and those who were in the southern parts were placed under a Viceroy whose seat of the government was at Shirangapatna.

During the chaotic conditions that followed the mortal defeat of the Vijayanagara forces in 1565 A.D., most of the local chiefs became independent and acquired the power of the estates which were till then being administrated by them as the chosen representatives of the Vijayanagara monarchs. The local chiefs in Chitradurga district too were affected by this phenomenon. The important families of such local chiefs who held sway over the district for nearly 200 years, until they were vanquished by Haider Ali of Mysore, are those of the Nayakas of Chitradurga, Harati, Hatti (Nayakanahatti) and Mattinamadu.

The Chitradurga family belonged to the Beda community. According to one of the tradition, three households belonging to the Kamageti family migrated from Jadikal-durga near Tirupati of Andhra Pradesh and settled down at Nirutadi near Bharamasagara of this district in about 1475 A.D. Later on, the son and the grandson of one of these men, named Hire Hanumappa Nayaka and Thimmanna Nayaka respectively, settled at Matti in Davanagere taluk. This Thimmanna Nayaka was appointed by the Vijayanagara King first as the Chief of Holalkere, then of Hiriyur and finally of Chitradurga. After consolidating his position, Thimanna Nayaka fortified the Chitradurga hill and conducted himself in such a manner that a force was sent by the Vijayanagara King to ensure his obedience to the throne. According to another account, this Thimanna Nayaka is the one who came with a small band of armed men from the hilly tracts near Tirupati and entered the service of the Palegar of Basavapattana. Later on, when a quarrel arose he fled to Mayakonda and, when pursued, escaped to the jungles near Guntur of Andhra Pradesh. There, he collected

a band of men, started plundering on all sides, moved back to this district again, erected a fort at a place called Rangapattana and intensified his activities. Being annoyed by his depredations, the Palegars of the neighbouring areas such as those of Harapanahalli, Nidugal and Basavapattana united themselves against Thimmanna Nayaka and with the aid of the Vijayanagara troops marched on Rangapattana. At this, Thimanna Nayaka moved over to Chitradurga hills for cover. When besieged here, it is said, he distinguished himself as the hero of a most daring adventure by carrying off at night, the horse of Saluva Narasinga Raya, the Vijayanagara Prince who was the commander of the forces pitted against him. It is said that while unleashing the horse, he aroused the groom whereupon he hid himself amidst the litter around the horse to escape notice. The groom who came near the horse drove in the peg afresh for the heel ropes and while doing so, unknowingly sent the peg right through the palm of the hiding Thimanna Nayaka. The latter endured the pain in silence and subsequently freed himself and ultimately despite grievous injury carried off the horse. This proof of fortitude resulted in the conclusion of a peace agreement and appointment of Thimanna Nayaka as the Chief of Chitradurga. Later on, at the behest of the king, Thimanna Nayaka is said to have easily captured Gulbarga, which the Vijayanagara forces had failed to take even after six months. Thimanna Nayaka was succeeded by his son Obanna Nayaka who, later took the name of Madakari Nayaka, broke off his allegiance to the Vijayanagara Empire and became an independent ruler. In 1602 A.D., Madakari Nayaka was succeeded by his son Kasturi Rangappa Nayaka. His reign which was about for 50 years was full of conflicts with the neighbouring chiefs. During the next 100 years the succeeding chiefs consolidated their position and by 1754 A.D., when Madakari Nayaka, the last, ascended the throne at the age of 12, Chitradurga had become a very powerful and independent State in the south. In their wars against each other during this period, the major powers like Haider Ali of Mysore and the Peshwas of Maharashtra sought for the help of Chitradurga Nayaka. First, he helped Haider Ali in the campaigns against Bankapur, Nijagal and the Marathas. However, with all his outward show of friendliness, Haider Ali appears to have nursed a consistent jealousy towards the Nayaka of Chitradurga and waiting for an opportunity to annex the chiefdom. In 1777 A.D., when Haider Ali was threatened with an invasion by the allied armies of the Marathas and the Nizam, the Nayaka of Chitradurga promised to help the allied forces against Haider Ali. As soon as he came to know about this change of alliance, Haider Ali marched upon Chitradurga and surrounded the fort. The Siege, which was maintained for several months without success, was lifted when the Nayaka agreed to pay a fine of thirteen lakh pagodas. The peace so bought by the chief was however short-lived, for soon after the conclusion of his campaign against the Marathas in 1779 A.D., Haider Ali again laid a siege on Chitradurga fort, which lasted for several months. Ultimately due to the treachery of some of the officers on the Nayaka's service, Haider Ali succeeded in capturing the fort. The Nayaka and his family members were taken to Shrirangapattana as prisoners.

After the fall of Tipu Sultan in 1799, the British restored the kingdom to the Wodeyars of Mysore and the area presently included in Chitradurga district also became a part of the princely State of Mysore. The rest of the history of the district runs parallel to that of the entire erstwhile State of Mysore.

Administratively, the district has undergone several changes in the post-Palegar period. Under the British management, the Chitradurga division included the districts of Chitradurga and Tumkur. In 1863, Chitradurga Division was broken up and Chitradurga district was tagged on to the Nandidurga division. In 1879, the system of administration through divisions was abolished and in 1882, Chitradurga came to be reduced to the status of a Sub-division under Tumkur district. In 1886, Chitradurga district was re-established. After several changes in the structure of taluks and sub-taluks till the mid-forties, the district administration has finally settled down with only one revenue sub-division and six taluks.

ANALYTICAL NOTE

ANALYTICAL NOTE

Physical Features

Chitradurga district extended over an area of 8436 sq.km. is situated in the southern part of the Deccan Peninsula and occupies a central position in the State of Karnataka. Physiographically, the region in which the district is situated may be classified as a maidan. The district has a maximum length of 180 km. from north to south and its maximum breadth is 107 km. from east to west.

(1) Location and Size

Chitradurga district lies between the latitudinal parallels of 13 degrees 34 minutes and 15 degrees 03 minutes north latitudes and 76 degrees 01minutes and 77 degrees 02 minutes east longitude. Chitradurga district is bound by the district of Dharwad and Bellary to the north, on the east by the Ananthapur district of the Andhra Pradesh, on the south by Tumkur district and on the west by the districts of Shimoga, Chikmagalur and Davanagere districts.

(2) Physiography

The district, it may be observed in broad items, is characterized by vast stretches of undulating plains interspersed by low ranges of rocky hills. It may however be broadly divided into two regions: the eastern region consists of what may be called the Vedavathi plains comprising the taluks through which the river Vedavathi flows, namely, Challakere, Hiriyur and the southern portion of Molakalmuru. The second region comprises the taluks of Hosdurga besides the northern portion of Molakalmuru taluk and the eastern parts of Holalkere taluk. This region is predominantly hilly and the area covered by these taluks may be called the central hilly region.

The whole of Chitradurga district lies in the Valley of Vedavathi river. The central parts of the western sector is occupied by a long range of flat-topped, steep-sided hills running in the south by south-east direction right across the district. The two well defined hill ranges in the plateau of erstwhile Mysore State area are the western and the Eastern Ghats. Chitradurga falls under the Eastern Ghats range which is marked by an interior belt, running from the Biligirirangana betta ranges in the south to Molakalmuru in the north. The district of Chitradurga is crossed from south, south-east to north and north-west by a belt of intermittent parallel chains of low hills, which are mostly bare and stony, through which are found narrow passes. The eastern line runs from the west of Hiriyur upto Chitradurga and from thence, with a break for some distance, continues from Kanakuppa hill upto the district boundary. Halarameshwaragudda (1162 metres MSL) in Hosdurga taluk is the highest point in the district. Birankaldurga (1159 metres MSL) in the Jogimadu area to the south of Chitradurga town is the next highest point. The two other prominent peaks lie in the eastern sector of the district and these are Eachalagudda and the Jogimatti, each with a height of about 1161 metres MSL. The contours in the district vary from a minimum of 500 metres to a maximum of 900 metres in height. The western parallel commences at Hosdurga and passes by Mayakonda to Anaji. Around Molakalmuru in the north are some detached clusters of rocky hills. The hills in the district are spread over four out of the six taluks in the district namely Molakalmuru, Hiriyur, Chitradurga and Hosdurga. Near the headquarters town of Chitradurga, a wedge shaped range of hills with the base south divides the taluk into two. Towards the base of the range, the hills are lofty, extensive and being wholly rugged, are covered with bamboos, stunted teak and other trees.

(3) Drainage

The district is drained mainly by the Vedavati which runs for a length of about 129 km. in the district. The Vedavati river joins Tungabhadra in Siruguppa taluk of Bellary district and the Tungabhadra itself meets the Krishna in the Kurnool district of Andhra Pradesh.

The other major streams in the district are Janagahalla or Chikkahagari, Swarnamukhi, Syagalahalla, Garani and the Nayakanhatti stream.

Vedavati is also called Hagari. The Vedavati is formed by the confluence of two streams, the Veda and Avati, which spring from the eastern side of the Bababudan Hills. The two streams Veda and Avati unite at Thangali three miles south-east of Kadur and then enter Chitradurga district at a point near Hosdurga. Penetrating the central belt of hills

it issues thence by the pass called the Marikanive to the south of Brahmagiridurga where a reservoir called Vanivilas Sagar has been built. Flowing near Hiriyur, the river leaves the district near Ghataparti in Challakere taluk. The river Vedavati is a shallow river, having a width of 400 feet near about Hosdurga.

Jaragahalla is a major stream in the district having its source in Holalkere taluk. It flows through Chitradurga and Jagalur taluk of Davanagere district and again on entering Molakalmuru taluk it receives the main drainage from the western portion of the same taluk. Flowing along the western sector of the Molakalmuru taluk boundary it then enters the middle sector and take a turn in the north easterly direction falling into Vedavati river in the confines of Bellary district. Two important hill streams (without any names given to them) take their rise in the range of hills in the north-west of the Molakalmuru taluk, flow into the Jaraganahalla about a mile beyond the taluk boundary.

Suvarnamukhi is also a major stream having its origin in Tumkur district. It joins the Vedavati after a course of seven miles in the district. The actual entry of the stream in the district is near Hiriyur taluk.

Syagalahalla also called Sulekerehalla is another major stream having its origin in the ranges of hills to the west of Holalkere taluk. The stream flows for about 45 miles in the district before it joins the Tungabhadra river near Harihar taluk.

Garani is an important stream rising in the hills near Chitradurga and flowing towards the east, almost parallel to the Vedavati river. Ultimately this stream joins the Vedavati some seven miles beyond Hiriyur.

(4) Climate

The climate of the district is marked by hot summer months, low rainfall and a pleasant monsoon. The period from December to February constitutes the cold season and is characterized by a clear bright weather. Generally the hot season starts by the end of February and lasts till about the beginning of June, when the district comes under the influence of the south-west monsoon. The south-west monsoon extends up to September. October and November form the retreating monsoon or the post-monsoon season.

The period from about the latter half of November to February is one of the comparatively cool weather. December is the coldest month with the mean daily maximum temperature at 27.9^0 Celsius and mean daily minimum at 16.6^0 Celsius. The period from March to May witnesses increase in temperatures. April is the hottest month when the mean daily maximum temperature marks up to 36.2^0 Celsius. During this season the maximum temperature some time reaches 41^0 Celsius. Relative humidity is low and particularly in summer months come down to less than 30 per cent in the afternoons.

(5) Winds

Winds are generally moderate with some strengthening during the period from June to October. Thunderstorms occur quite frequently in the months of April and May and to a lesser extent during the south-west monsoon months.

(6) Rainfall pattern

The entire district falls under central dry agro climatic zones of the State. The taluks under the district are Challakere, Chitradurga, Hiriyur, Holalkere, Hosadurga and Molakalmuru.

TALUK WISE RAINFALL PATTERN, CHITRADURGA DISTRICT

Source: Karnataka State Natural Disaster Monitoring Centre

The average rainfall in the district ranges from 483 Mm in Challakere taluk to 682 Mm in Holalkere taluk. Among the taluks in the district the premonsoon rainfall contributes 17 to 21 per cent of the annual rainfall, south west monsoon contributes 50 to 55 per cent and north east monsoon contributes 26 to 30 per cent of the annual rainfall. The co-efficient of variation ranges from 49 to 66 per cent for pre monsoon season, the highest variability (66 per cent) being in Molakalmuru taluk. The co-efficient of variation for south- west monsoon ranges from 31 to 49 per cent, the highest being in Challakere taluk. The co-efficient of variation for north east monsoon ranges from 51 to 58 per cent, the highest being in Challakere taluk. The co-efficient of variation for annual rainfall ranges from 26 to 36 per cent. Challakere taluk experiences high variability of rainfall.

(7) Forestry

The total geographical area of the district is 8,43,600 hectares. Out of which 73,719 hectares is being covered by forest. The district itself is plain country with very little thick forest. The forest in the division consists mostly of the shrub growth and exploitation of the same for fuel and agricultural implements is increasing year by year. The over exploitation of the forest has resulted in substantial denudation. As the soil and vegetation are interdependent, one cannot exist without the other. The improvement of the soil mainly depends on the growth vegetation. Forestry schemes undertaken at various stages include the working plan method, the object being to bring the areas not covered by working scheme under proper scientific method. The main source of forest revenue in the district is from fuel and minor forest produce.

(8) Geology and Soils

The rock formation in the district falls into the categories of the crystalline schist, the granite gneisses and the newer granites with a few later intrusive basic dykes. All these belong to the oldest rock formations recognized in India. The Chikkanayakanahalli band schist running towards the north-west constitutes the chief belt of schists. Here, the band has split up into two divisions; the lowest belt consists of hornblendic schists with quartzites and ferruginous quartzites. These schists are covered by a series of grits and clay. Coarse grey and pink porphyritic granite are noticeable on the western borders. Among the dyke rocks, dolerites are conspicuous.

The district is having a fertile black soil with their bases having a high water holding capacity. The black soils found in a wide area in the district are particularly suited for rain fed crops like short staple cotton, groundnut, jowar and tur dal. The soil in the district is found to contain a high concentration of soluble salt which are either critical for growth or critical for germination. The black soil content in the area tends towards alkalinity. In the atchkat area under major tanks, rich clay soil is found, which after successive cultivation, manuring and frequent additions to good soil have greatly improved in fertility. Alkaline lands of all degrees of alkalinity both in dry locations and in low lying flats forming boggy marshes are found in the Hiriyur taluk. The district taken as a whole has varied soil structure, black, red and medium black. The deep red loamy variety is also found which is good for the growth of Ragi.

(9) Flora & Fauna

Flora: Physiographically, the district has dry and thirsty land with broken hill ranges and vast undulating plains. The dry and mixed are the category of forest included in the district.

Coconut plantations can be seen in areas of the district wherever water resources are available. The Vedavati valley near Hosdurga presents a grand vista of verdant vegetation with tree spread all over. The forest in the district is called the dry deciduous scrub type. The quality of timber is poor because of poor rainfall.

The important trees found in the district are Kamara, Sone or Swami-mara, Tharad or Kempu Khaira, Dindiga, Bevu, Honge, Hunase, Kakke, Sujjalu.

Fauna: The hilly tract of the district has mainly a good number of leopards. Locally this animal is called as Cheetah, Kiruba, Ibbandi and Dodda Ibba. Hyenas, bears and wild bear form part of fauna of the district. Occasionally tigers are seen in the hilly areas of the district. The spotted deer is seen in herds in Hiriyur, Holalkere and Chitradurga.

Poisonous reptiles are common in the district. Also harmless snakes, scorpions of different varieties can be seen. Common birds like crow, mynah, pigeons, woodpecker and eagles are found here as in other parts of the State. The bird fauna is not very rich. Squirrels are found all over. Many kinds of wild fowl are seen in the south of the district. Pelican is also found in good number. However, there are no game sanctuaries in the district.

(10) Cropping Pattern

Paddy, ragi, maize and jowar are the cereal crops grown in the district. Ragi and jowar are grown in all the taluks of the district. The soil is black and fertile having a high water holding capacity which is suitable for rain fed crop like jowar, groundnut and tur dal, etc. Sun flower, sesamum are some of major oil seeds crops of the district. Cotton is an important commercial crop. Among the plantation and horticultural crops and condiments and spices, important are onion, banana, mango, tomato, coconut, arecanut and dry chillies respectively.

The size of the agricultural holdings is one of the important factors that determine the productivity of the land. The landholdings for the year 2005-06 of different size are given in the following table. From the table it is observed that the number of marginal holdings below one hectare and small holdings of size one to two hectares constitute 67.06 % of the total holdings. Only 1.77% holders own land more than ten hectares.

LAND HOLDINGS IN HECTARES 2005-06

(11) Irrigation

Vedavati or Hagari is the only river which mainly serves as the source of irrigation. Vanivilas Sagar or Marikanive reservoir constructed utilising the Vedavati valley and the canal network thereof provides irrigation facilities to 9190 hectares of land in Hiriyur taluk and for a few villages situated outside the limits of this taluk as well.

Chitradurga is also benefitted by other major irrigation project, viz, Bhadra Reservoir project, which comprises of a storage reservoir constructed across the river Bhadra near Lakkavalli village in Tarikere taluk of Chikmagalur district. Gayathri dam and reservoir and Narayanpur anicut are the other medium projects in Krishna basin. Gayathri dam and reservoir built across the river Suvarnamukhi near Hiriyur, provides irrigation to 2305 hectares of area. Narayanpur anicut provides irrigation to 1624 hectares. Feeder Canal to Ranikere, under Upper Tunga project is an ongoing project in the district. An area of 3238 hectares of Challakere and Hiriyur taluk will be benefitted with the utilisation of 0.91 TMC of water from this canal.

Besides these, local tanks and irrigation wells in the taluks are used for irrigation. Pick-up and lift irrigation are also in practice wherever possible.

During 2006-07, the special rehabilitation package was launched by the Govt. of India, under Prime Minister's special package (SUJALA II) to mitigate the distress of farmers in selected 31 districts of the country, from where large numbers of suicide cases by the farmers were reported. In Karnataka, 7 districts have been identified as drought prone districts and Chitradurga is one among them.

(12) Natural Wealth

Manganese and iron ore which are the chief minerals of the district are found around Chitradurga in a longitudinal belt. Other minerals found in the district are green and pink quartz, red and yellow ochres, limestone, dolomite; copper and pyrite in Chitradurga taluk; Barite and feldspar in Holalkere taluk. Gold is being investigated by GSI and HGML in Chitradurga taluk, and Javanagondanahalli, Anesidri and Dindivara of Hiriyur taluk. The other details can be seen from the following table:

TALUK WISE MINERAL RESOURSES OF THE DISTRICT

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
1	Molakalmuru	-	Ornamental stone	
2	Challakere	Corundum, Feldspar,Quartz, Quartzite	Brick Earth Sand ordinary, Building stone	Major minerals are not of commercial value.
3	Chitradurga	Copper, Pyrites, Iron ore, Manganese Dioxide and Manganese ore, Gold, Antimony, Lead ores, Kyanite	Lime Kankar, Tank Clay, Brick Earth, Building stone	Gold is being investigated by GSI and HGML. Tank clay is extracted only seasonally.
4	Holalkere	Iron ore, Manganese, Quartz, Feldspar, Baryte, Green Quartz, Limestone , Dolomite, Manganese Dioxide,Kyanite, Steatite & Moulding stone	Building stone	The ore is being sent to MMTC. Glass grade quartz are reported.
5	Hosdurga	Iron ore, Manganese, Green Quartz, Pink quartz, Manganese dioxide, Red & Yellow ochre, Dolomite, Limestone & Quartz, Fire Clay, China clay, Asbestos & Berytes	Building stone, Ordinary sand, Tank clay & Ornamental stone	The department has co-ordinated with NCB for Major Cement Plant in Chitradurga and Tumkur districts. Drilling exploration and detailed mapping has been initiated by the Department.
6	Hiriyur	Quartz, Limestone, Gold, Dolomite & Lime Kankar	Building stone, Brick earth & Lime Karkar	The department is carrying out exploratory Dril,l,I,ng for Gold in collaboration of HGML.

Source: Department of Mines & Geology, Govt. of Karnataka.

(13) Animal Husbandry

Agriculture and cattle wealth are inter-related with each other. Cattle of Amrit Mahal breed are very famous in Chitradurga district. The cattle of this breed are very strong in shoulder and limbs and this are active. They are generally white in colour. The cattle in the district mainly depend on the ragi and jowar stalks for their fodder. Cattle, Sheep, Goats, Pigs, Dogs and Poultry form the main livestock wealth of the district.

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Cattle	341011
2	Buffaloes	193260
3	Sheep	931885
4	Goats	368730
5	Pigs	4663
6	Rabbits	37

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
7	Dogs	64701
8	Others	8238
	Total livestock	**1912525**
	Total poultry	**1774227**

Source: Livestock Census, 2007, Karnataka at a glance, 2010-2011, Directorate of Economics and Statistics, Bangalore.

As per the statistics of the Livestock Census 2007, the district has the 3rd highest livestock population. The district ranks at 2nd place in its total buffaloes population. Sheep-breeding and rearing of goats are also of considerable importance. The district is the 2nd largest in the State in sheep breeding.

(14) Veterinary Services

The spread of veterinary services has resulted in overall improvement of animal health. The district has 143 veterinary institutions catering the needs of the livestock population in the district including 8 veterinary hospitals, 51 dispensaries, 62 primary veterinary centres etc. The taluk-wise details are given below:

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2009-10

(15) Fisheries

Fishery resources of the district consist of several major and minor tanks and two reservoirs viz., the Vanivilas Sagar and the Gayathri Reservoir. The important fishes found in the water of the district are carps, cat fishes, murrels and other miscellaneous varieties. The important fishing communities in the district are Besthas, Upparas, Bedas.

For the development of fisheries in the district, there is fisheries department which has taken an intensive fisheries development. The Fishermen's Co-operative Society is chiefly engaged in the exploitation of fishery resources.

The fishing activities of the district have been confirmed to that of the inland fishing only as there is no coastal line in the district. However, there are 6 fish rearing farms and 12 fishing co-operative societies in the district.

From the development point of view, the State Government has introduced various welfare schemes such as saving cum relief scheme, Group accident insurance for the active fishermen, development of model villages for fishermen and establishment of district relief funds with a view to improve the socio-economic condition of fishermen in the district. Below given table highlights in brief the fishing activity in the district.

FISHING ACTIVITY IN THE DISTRICT

Fish Seed Stocked	**In lakh fingerlings**
a) Reservoirs	7.00
b) Major Tanks	61.11
c) Minor Tanks	7.80

(16) Industries

Chitradurga was one of the highly industrialized districts of the State. With the creation of a new district called Davanagere, Chitradurga presently cannot boast itself to be an advanced district in terms of industrial popularity, as the major industrial area of the erstwhile Chitradurga now comes under the jurisdiction of Davanagere district. Mining is a developing industry in the district. Another important old time industry of the district is production of edible and non-edible oil by the use of oil Ghanas. Oil processing is the hereditary occupation of the people belonging to the Ganigas. Besides this there are a few small scale industrial units and there are few rice mills.

There are totally 167 major factories in the district providing employment to 5,530 persons. The following table gives the taluk-wise details of major factories for the year 2009-2010.

TALUKWISE DETAILS OF MAJOR FACTORIES FOR THE YEAR 2009-10

(17) Trade and Commerce

Banking in the modern sense was almost unknown in the old days; 'Kaisala' or the hand loan was popular in the rural areas of district then. But, presently branches of many banks have been opened in all taluks to cater to the needs of public. These banks have financed the needy persons engaged in agriculture, business, transport and other activities. Cotton is the main commodity having a marketable surplus in the district. The other marketable commodities are Ground nut, jowar, tamarind, black gram, sesamum and millets. The chief places of business in the district are Hiriyur, Molakalmuru and Chitradurga. Molakalmuru is the chief centre for silk fabrics which are in great demand. Chitradurga town is known for its trade in grains and cotton. Taluk wise details of banks are given in the table below.

TALUK WISE DETAILS OF BANKS IN THE DISTRICT

Name of Taluk	Number of Banks as on 31.03.2010

There are number of co-operative societies discharging useful functions. Besides, there are 12 regulated markets established at different places in the district to regularise the sale of these commodities. Consequent on growth of population and rapid urbanisation of places retail trade has spread all over. Weekly shandies are held in many places in the district. A large volume of business is transacted in the largest weekly fair which is held regularly in Challakere. The below given table gives the details of number of co-operative societies in the district.

(18) Transport and communication

The modern means of conveyance in the district are buses, lorries, auto-rickshaws, motor cars, motor cycles and bicycles.

The district headquarters is well connected to every nook and corner of the district. K.S.R.T.C. has introduced hi-tech buses to many places in the State which pass through Chitradurga town. Besides these, many express and shuttle buses ply in Chitradurga district.

A broad gauge railway route of length 171 km. is constructed in the district. The trains on this route pass through the district headquarters. There is no meter gauge railway route in the district. The details of various facilities available under transport and communication for the year 2008-09 are given in the following tables.

DETAILS OF RAILWAY TRANSPORT IN THE DISTRICT

Source: Chitradurga District at a glance 2009-10, District Statistical Office, Chitradurga.

The district has 302 post offices, 112 telephone exchanges and good number of telephone connections. Apart from this, the various mobile service agencies have set up their station and service centres.

(19) Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL- Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire State. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pump sets. Besides this, with a view to benefit weakest among the section of society, schemes called Bhagya Jyoti / Kutir Jyothi have been introduced.

Statement given below shows talukwise number of villages electrified and talukwise energisation of IP sets in Chitradurga district as on 2009-10.

TALUKWISE DETAILS OF NO. OF VILLAGES ELECTRIFIED AND ENERGISED IP SET-2009-2010

Urban local bodies

The statutory urban local bodies are the Municipal Corporation and Municipal Councils. These urban local bodies elect Councillors / Corporators from each ward and the tenure of the Councillors/Corporators would be for five years. The President or Vice-President of the Municipal Council and the Mayor/Deputy Mayor of the Corporation whose tenure will be for a period of one year are elected from among the elected Councillors/ Corporators. The Chairman of various committees are also elected from among the elected Councillors for a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for day-to-day administration and the executive authority is vested with them.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and Governmental affairs by decentralization of power and functions for the purpose of development, planning and implementation of various programmes thereof, Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminous with that of the corresponding district but excludes the statutory towns. Accordingly, Zilla Panchayat has been constituted for the district and its jurisdiction extends over the Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminous with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities, if any.

The Zilla Panchayat elects its Presidents and Vice-President and Chairman of its committees from amongst the elected members. The term of these elected representatives will be for five years. An IAS Officer is posted by the State Government as Chief Executive Officer of the Zilla Panchayat. Various departments assist the Panchayat.

Grama Panchayats

The Government of Karnataka enacted the Karnataka Panchayat Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Gram Panchayat.

The Grama Panchayat is authorized to function on the items listed in Schedule I of the Act namely, preparation of annual plans for the development of Panchayat area, Preparation of annual budget, providing reliefs in natural calamities, removal of encroachments on public properties, organising voluntary labour and contribution for community works, maintenance of essential statistics of the village, in addition to matters relating to Agriculture, Animal Husbandry, Fisheries, Social and Farm Forestry, Khadi, Village and cottage Industries, Rural Housing, Drinking water, Roads, etc., Rural Electrification, Non-conventional energy sources, Poverty Alleviation Programmes, Markets and Fairs, Rural Sanitation, Public Health and Family Welfare, Women and Child Development, Social Welfare, Welfare of Weaker Sections, Public Distribution System, Maintenance of

Community assets, Construction and Maintenance of Dharmashalas, Chatras, Cattle Sheds, Ponds, Cart Stands, Slaughter Houses, Public Parks, Play Grounds, etc., regulation of manure pits in public places and establishment and control of shandies, such other functions as may be entrusted.

The Grama Panchayat is also empowered to make provisions for carrying out within its area any other work or measure which is likely to promote the health, safety, education, comfort, convenience or social or economic well being of the inhabitants of the Panchayat area.

CONCEPTS AND DEFINITIONS:

Census concepts

Building: A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca houses: Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, Stones (duly packed with lime or cement mortar), G.I/ Metal/Asbestos sheets, Burnt bricks, Cement bricks and Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Stone, Slate, G. I/Metal/Asbestos sheets and Concrete. Such houses are treated as Pucca house.

Kutcha houses: Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely grass, unburnt bricks, bamboos, mud, reeds, thatch, plastic/polythene, loosed packed stone, etc. Such houses are treated as Kutcha house.

Dwelling Room: A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e, it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a Census house is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household, then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House: A 'Census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non-residential purpose or both. If a building has a number of flats or Blocks/ Wings,which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

Village: The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area: The data in the Census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural

areas. The urban area comprises two types of towns viz; statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

(a) Statutory Towns: All places with a Municipality, Corporation, Cantonment Board or Notified Town Area Committee, etc., are known as Statutory Towns.

(b) Census towns: All other places satisfying the following three criteria simultaneously are treated as Census Towns.

i) A minimum population of 5,000;

ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban', all villages which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

Urban Agglomeration: An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps, etc., may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the existing town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

(a)The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG): The outgrowth is a viable unit such as a village or a hamlet or an enumeration block made up of such village or hamlet and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc. Educational institutions, post offices, medical facilities, banks etc. and physically contiguous with the core town of the UA.

City: Towns with population of 100,000 and above are called cities.

Household: A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a Census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional Household: A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggar's homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category of households would cover only those households where a group of

unrelated persons live in an institution and share a common kitchen.

Houseless household: Households who do not live in buildings or Census houses but live in the open or roadside, pavements, in Hume pipes, under flyovers and staircases, or in the open places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Languages and Mother tongue: As per the Census concept, each language is a group of mother tongues. The Census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person’s mother to the person. If the mother died in infancy, the language mainly spoken in the person’s home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in Census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate: A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate: Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level: The highest level of education a person has completed.

Work: Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also

includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker: A person who has worked for major part of the reference period (i.e., six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker: A person who worked for 3 months or less but less than six months of the reference period (i.e., in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker: A person who has not worked at all in any economically productive activity during the reference period (i.e., last one year preceding the date of enumeration) is termed as 'Non-worker'.

Cultivator: For purposes of Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from Government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like-tea, coffee, rubber, coconut and betel nuts (areca). The workers engaged in plantation crops are recorded under "other workers."

Agricultural labourer: A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker: Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consists of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, and Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker: A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all Government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work participation rate: percentage of Workers (Main+ Marginal) to total population.

Population density: Population density is the number of persons inhabited per square kilometer of the area.

Age: Age is measured in terms of the completed number of years.

Sex Ratio: Number of females per 1,000 males in a population.

Non- Census Concepts

Civic status of urban units: Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of U.A/town: Size- class of U.A/Town is based on the population size of the U.A. /City/Town. U. A.s/Towns with 100,000 and above population are classified as Class I U.A.s/Towns. Towns with 50,000 to 99,999 population are

classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area: The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city: The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in terms of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the megacity. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities in the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega cities. In 2001 Census, cities with 10 million and above population has been treated as Mega cities and the same criteria of population has been adopted in 2011 Census.

Concepts used in VD and TD of DCHB:

1. Educational Amenities: The type of different educational facilities available in the village is given in numbers. Both Government and private educational facilities / institutions are considered separately for this purpose. If there are composite schools like Middle schools with Primary classes, or Secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with primary classes, the number of Primary schools in the village may be given as three and that of Middle school as one even though there may be only three educational institutions. So also in case of Secondary schools. For better understanding, the distinctiveness of different types of schools is depicted hereunder:

1.1 Pre-primary (PP): In present days, the children are sent to schools at a very early stage. Lot of pre-primary schools, private schools in particular, have come up in villages and towns. These may or may not be recognized by the competent authorities. Even many Secondary schools have classes starting from pre-primary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school, etc.

1.2 Primary School (P): Schools providing education from Standard 1 and upward up to and inclusive of Standard V are classified as Primary Schools.

1.3 Middle School (M): Schools providing education from Standard VI and upward upto and inclusive of Standard VIII are classified as Middle Schools. A School with Class 1 to VIII is treated as two units, i.e. one Primary School and one Middle School.

1.4 Secondary School (S): Schools providing education from Standard IX and upwards upto and inclusive of Standard X are classified as Secondary Schools. A composite school with 1 to X standard is treated as three separate units and counted separately under the categories of Primary School, Middle School and Secondary School.

1.5 Senior Secondary School (SS): Schools and colleges that provide education for Standards XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior Secondary Schools with Standard I and upwards upto Standard XII.

1.6 Degree College:

(i) Arts/Science/Commerce: These are all educational institutions that provide post-PUC level education leading to University degree/diploma in any subject or combination of subjects and also post-graduate levels of education. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

(ii) Engineering (E): It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B. Tech.) or post-graduate engineering degrees like M.Tech.

(iii) Medicine (M): These are graduate/post-graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy, etc., post-graduate medical degrees like M.D. or equivalent in the above branches of medicine.

1.7 Management College/Institute (MI): It offers courses like Diploma in Management, Post-Graduate Diploma in Management, Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

1.8 Polytechnic (Pt): An Institution providing certificate/ diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be both Government and Private.

1.9 Vocational School/ITI: It is a vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Trainings offered by Industrial Training Institutes (ITI) fall under this category.

1.10 Non-formal Education/Training Centre (NFTC):: Non-vocational education centers, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification, and age. These education centers are open to all.

1.11 Special School for Disabled: There are Government and Government recognized institutions/organizations engaged for providing education to different groups of disabled persons.

2. Medical Facilities:

2.1. Hospital-Allopathic and Hospital-Alternative medicine: A hospital is an Institution, where sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31 to 500 depending upon whether these are sub-district, sub-divisional or district hospitals. If there are hospitals providing facilities under different systems of medicines such as, Allopathy, Ayurveda, Unani and Homoeopathy, etc., these details are to be given separately.

(a) Allopathy: The system of medical practice, which treats disease by the use of remedies which produce effects different from those produced by the disease under treatment.

(b)Ayurveda: Ayurveda means 'Science of life'. The philosophy of Ayurveda is based on the theory of Pancha Mahabhootas (Five elements) of which all the objects and living bodies are composed of. The combinations of these five elements are represented in the form of Tridosha: Vata, Pitta and Kapha. These three 'doshas' are physiological entities of living beings. Ayurveda developed into eight distinct specialities, i.e., Internal Medicine, Pediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of virility. Two types of treatments, Preventive and Curative, are given in Ayurveda.

(c) Unani: Treatment of Unani consists of three components, namely, preventive, promotive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Arthritis, Jaundice, Filariasis, Eczema, Sinusitis and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani System emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movement and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

(d) Homoeopathy: Treatment in Homoeopathy, which is holistic in nature, focuses on an individual's response to a specific environment. Homoeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animal sources. Homoeopathic medicines do not have any toxic, poisonous or side effects. Homoeopathic treatment is economical as well and has a very broad public acceptance.

2.2 Community Health Centre (CHC): Community Health Centres are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. Four PHCs are included under each CHC thus catering approximately 80,000 population in tribal/hilly areas and 1,20,000 population for plain areas. CHC is a 30- bedded hospital providing specialist care in Medicine, Obstetrics and Gynaecology, Surgery and Paediatrics.

2.3 Primary Health Centre (PHC): A Primary Health Centre is the first contact point between a village community and the Government Medical Officer**.** A PHC covers a population

of 20,000 in hilly, tribal or difficult areas and 30,000 population in plain areas with 4-6 indoor/observation beds. It acts as a referral unit for 6 sub-centres. It has a Medical Officer and para- medical staff.

2.4 Primary Health Sub- Centre (PHS): A Primary Health Sub-centre is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 population in hilly/ tribal/ desert areas. Each PHS has a sanctioned strength of one male and one female health worker.

2.5 Maternity and Child Welfare Centre (MCW): It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counselling, delivery, immunization of children with check-up etc.

2.6 TB Clinic (TBC): The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialised units such as the District Tuberculosis Centre (DTC) act as referral centers. TB clinics are established by the Government of India under the National Tuberculosis Control Program and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the district and it also functions as a specialized referral centre. The functions of sub-district level Tuberculosis Unit (TU) are implementation, monitoring and supervision of TB control activities in its designated geographical areas.

2.7 Health Centre: Clinics where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private or public health facility that is devoted to the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.

2.8 Dispensary: Place where patients are treated and medicines provided but with no in-patient facility. Immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.

2.9 Veterinary Hospital: Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animals like cows, buffaloes, etc., in rural areas.

2.10 Mobile Health Clinic: These are Mobile vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated days to deliver the health care services. The services generally offered are OPD, ante-natal and post-natal, B.P. examination, X-ray, ECG, Immunisation, First Aid etc.

2.11 Family Welfare Centre: Check-up and counselling is provided to the pregnant and married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.

2.12 Nursing Home: A nursing home is a long–term care facility licensed by the State that offers 24-hour room and board and health care services including basic and skilled nursing care, rehabilitation and a full range of other therapies, treatments and programs to old and sick people. The difference between a hospital and a nursing home is that a nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

2.13 Medicine Shop: A shop which sells drugs and medicines of any system of medicine viz. allopathic, homeopathic, ayurvedic or unani medicines, is considered as a medicine shop. Sometimes some shops and Paan shops also keep ordinary medicines, like Crocin, Burnol etc. These shops are not taken as medicine shops.

3. Drinking Water: The following are the main source of drinking water facility(s) available in the village.

3.1 Tap Water-treated(T): This source of drinking water refers to a source of drinking water which is provided to the villagers through pipes within their premises or to the villagers through common taps (public taps/community water points) by the Government departments, local bodies, Panchayats, public or private estate agencies, etc. after treatment. Such a source is treated as 'Tap water from treated source'.

3.2 Tap Water-un-treated(TU): If the villagers are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water, or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from un-treated source'.

3.3 Covered Well (CW): A well that is (1) covered on sides from run-off water (i.e., excess water from rain, snowmelt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animals cannot fall inside the hole, is considered as "Covered Well".

3.4 Un-covered Well (UW): A well which is (1) un-covered on sides from runoff water, (2) un-covered from bird droppings and animals; or (3) both.

3.5 Hand Pump (HP): Hand pump means where ground water is taken out manually by operating a hand pump.

3.6 Tube Well (TW)/Borehole (B): Tube Well/Borehole denotes the ground water source from where ground water is taken out through electrical or diesel pump.

3.7 Spring, River/Canal, Tank/Pond/Lake: Self-explanatory.

4. Community Toilet Complex: Community Toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Sauchalaya or likes.

5. Rural Sanitary Mart/Rural Sanitary Hardware Outlet (RSM): It is an outlet dealing with the materials, hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other sanitation and hygiene accessories required for individuals, households and the environment in the rural areas.

6. Community bio-gas or recycle of waste for productive use: Many of the solid wastes having economic values but put for disposal can be recycled for reuse. For example, food, cowdung, leaves, vegetable, paper, wood, plastics, old cloth etc. However, some of the wastes are not recyclable. These are carbon paper, thermo coal etc. When recyclable solid wastes are subjected to decomposition, bio-gas could be produced under favourable conditions. These systems of recycling may be there at the village level organized by Gram Panchayats with technical support from Governments or non-Government organizations.

7. COMMUNICATION AND TRANSPORT FACILITIES:

7.1 Post Office (PO): Self-explanatory

7.2 Sub-Post Office (SPO): Sub-post office includes Extra Departmental Post Offices and those providing franchise postal services and also part time services in lieu of some honorarium. The limited postal services include sale of stamps, money orders, receipt of letters and also distribution of letters.

7.3 Post & Telegraph Office (PTO): Telegraph office is set up by the Government to enable people to send or receive telegrams. If the phonogram facility is available (though the Telegraph office may not be equipped with Morse Code Transmitters), the village is considered to be having telegraph facility.

7.4 Telephones (landlines): If the village is having the Public Call Office (PCO) either run by the Post Office or by individuals or by a private shop, then the village is considered to be having telephone facility.

7.5 Public Call Office (PCO)/Mobile PCO: Self explanatory

7.6 Mobile Phone Coverage: Mobile phones are now very common particularly in urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

7.7 Internet Cafes/Common Service Centres (CSC): If the village is having the facility of Cyber Cafes or shops owned by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all Government services in an integrated manner at the door step of the citizen at an affordable cost even in the remotest corners of the country through a combination of IT based as well as non-IT based services.

7.8 National Highway (NH): These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH-2 for easy identification.

7.9 State Highway (SH): These are roads of a State linking district headquarters and important cities within a State and connecting them with NHs or Highways of the neighbouring States.

7.10 Major District Roads (MDR): These are important roads within a district, serving areas of production and markets and connecting these with each other or with the main Highways.

7.11 Other District Roads (ODR): These are roads serving rural areas of production and providing them with outlet to market centres, taluka headquarters, block development head quarters or other main roads.

7.12 Village Road: The approach to village refers to the State of road etc., leading to the village. This is to see whether the village is approachable both in fair and foul weather, and whether it is inaccessible only for some time in the year.

7.13 Black-Topped Road (BTR): A road provided with a bituminous surfacing.

7.14 Gravel Road (GR): A road constructed using well compacted crushed rock or gravel material (coarse sand, small stones), which is fairly resilient and does not become slippery when wet.

7.15 Water Bound Macadam (WBM): This is the road layer made of crushed or broken mixture of sand and rock fragments mechanically interlocked by rolling and voids filled with screening and binding material with the assistance of water.

7.16 Foot Path (FP): A trodden path for the use by pedestrians and in some cases bicycles. The Foot Paths are not suitable for vehicular traffic except bicycles in some cases. Most of the interior/forest villages are connected by Foot Paths.

8. Banks and Credit Societies: Banking facility means a place where a person can operate a bank account.

8.1 Commercial Bank (CB): These may be banks wholly owned by the Government of India or by Indian or Foreign Companies.

8.2 Co-operative Banks (Co-op. B): A Co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their bank. Co-operative banks are often created by persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Co-operative Societies Act. The Co-operative Banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.

8.3 Agricultural Credit Society (ACS): Major objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural production, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.

8.4 Non-Agricultural Credit Society (NCS): These societies include consumer co-operative societies and also credit co-operative societies of certain categories of persons like teachers, health workers, etc.

9. Miscellaneous Facilities:

9.1 Self-Help Group (SHG): Self-Help Groups are groups of between 10-15 women created by either NGOs or under the SGSY (Swarnjayanti Gram Swarozgar Yojana) for the purposes of meeting local credit needs. They are sometimes called Mahila Mandals in villages.

9.2 Public Distribution System (PDS) shop: The shops through which some essential commodities are sold by the Government at subsidized rates. They may also be known as ration shops and control shops.

9.3 Mandis/Regular Market: These are those clusters of shops with or without fixed premises which are open on at least six days a week and opens at least from morning hours to dusk.

9.4 Weekly Haat: These are those clusters of shops with or without fixed premises which are open once a week.

9.5 Agricultural Marketing Society: It is a common platform to analyse the issues among all the individuals and institutions in the field of agricultural marketing.

9.6 Nutrition Centre:

Integrated Child Development Services (ICDS): The Integrated Child Development Services (ICDS) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as, Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.

9.7. Anganwadi Centre: Each centre under the ICDS scheme is run by a Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the centre and provide food to the children.

9.8. Accredited Social Health Activist (ASHA): ASHA is a health activist in the community who will create awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.

9.9 Sports Club/Recreation Centre: Indoor and out-door games are arranged by the Club and activities like wrestling, Judo, Karate etc., are also done there.

9.10 Cinema/Video Hall (CV): If regular cinema houses licensed by Government are available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.

9.11 Public Library: Books are kept there which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or Panchayat or any influential person. Free service or nominal charges are made for using the facility.

9.12 Public Reading Room: Here the public may read newspapers and magazines. These may be sponsored by Government or Local Body or Panchayat or any influential person.

9.13 Newspaper Supply: The availability of the Newspaper(s), both in English and vernacular, in the village is considered to having the said facility.

10. Availability of Electricity /Power: If power is actually available, whatever may be the form of its use, it is indicated in affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment, etc., it is considered that electricity is available. Supply of electricity is considered available even when there is a temporary ban on new domestic connections. Connections to residential houses, bungalows, clubs, hostels and hospitals run on non-commercial basis, charitable, educational and religious institutions are included in the domestic category.

10.1 Power Supply for domestic use: This category includes electricity used only for domestic consumption.

10.2 Power supply for agricultural use: This category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

10.3 Power supply for commercial use: This category includes electricity connections given for workshops, industries etc. or for any commercial purposes.

10.4 Power supply for all uses: This category includes electricity connection is available for domestic use, agricultural use, and for any commercial purposes.

11. Land use pattern: The land use area of the village is given in hectares. The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the 9 categories as indicated in the Village Directory.

12. System of Drainage: Generally, by drainage system, we mean the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in towns, which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system.

There may be possibility of the town having both closed as well as open drainage systems.

13. Type of latrines: The data on various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit Latrine, Flush/Pour Flush Latrine and Service Latrine. **(i) Pit System:** The latrines are attached to the pit that is dug into the ground for the reception of night soil, are reckoned as pit latrine. **(ii) Flush/pour flush:** A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush latrine uses water poured by hand for flushing (no cistern is used). **(iii) Service:** Type of latrine from where night soil is removed manually by scavengers. All other types of latrines are covered under "Others" category.

14. Protected Water Supply- Source and Capacity of Storage System: There are various sources of water supply and its storage system in the town.

14.1 Service Reservoir: A service reservoir is a water storage container that holds clean water after it has been treated in a water plant and before it is piped to the end users. These containers are covered and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer within the water supply system so that water supplies can be maintained across periods of varying demand.

14.2 River Infiltration Gallery: Infiltration Galleries are capable of supplying large quantities of water and are used where wells are unable to supply water needs, i.e., where an impermeable rock barrier affects well efficiency or where surface water sources are too shallow for intake screens. Infiltration galleries are one or more horizontal screens placed adjacent to on-shore or directly underneath (bed-mounted) a surface water source.

14.3 Bore Well Pumping System: A bore well is a well of 6" to 12" in diameter drilled into the earth for retrieving water. The depth of a bore well can vary from 50 feet to 3000 feet. Water is pumped out to surface through electricity/generator.

14.4 Pressure Tank: Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

15. Road lighting (Points): Road lighting means the number of street lights that are maintained in the town.

16. Home Orphanage: Orphanage is the name to describe a residential institution devoted to the care of orphans – children whose parents are deceased or otherwise unable to care for them. Parents and sometimes grandparents are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a ward of the State and orphanages are a way of providing for their care and housing.

17. Working Women's Hostel: These may be recognised or unrecognised by any public authority. The data on number of working women's hostels available in the town are collected.

18. Old Age Home: There are two types of Old Age Homes in the State. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelter, food, clothing and medical care. The second type is the "Paid" home where care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in the State and they are well worth considering.

19. Stadium: A stadium is a place or venue for (mostly) outdoor sports, concerts or other events consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or sit and view the event.

20. Auditorium/Community Hall: Place where meetings, social functions etc., are organised.

2011 Census Findings – Distribution of Population in rural-urban areas:

The total population of the district as per 2011 Census is 16,59,456. Of the total population, 8,40,843 are males and 8,18,613 are females. The district's share to total Karnataka's population is 2.72 per cent and it ranks at 17th place among the districts. The population of the district is further distributed as 13,29,923 living in rural areas and 3,29,533 in urban areas, constituting 80.14 and 19.86 per cent of rural and urban population respectively.

The population in the age-group 0-6 is reported as 1,84,280. This constitutes 81.01 per cent in rural areas and 18.99 per cent in urban areas. The proportion of child population is 11.1 per cent to the total district population. An interesting segment of India's population is its

adolescents and youth. While the adolescents are classified as persons between 10-19 years of age, the youth are defined as persons between 15-24 years. The number of adolescents (10-19) in the district is 3,22,805 and the youth (15-24) is 3,22,141. Together the young age group between 10-24 years in the district constitutes 4,79,786 which is about 28.91 per cent of the total district population. The rural – urban distribution remains more or less same.

Size Class and Status of Towns:

The statement below gives the number of urban units according to its size class and civic status of towns as per 2011 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Sl. No.	Size-class of town	Name and civic status of town	Urban Population		
			Persons	Males	Females
1	2	3	4	5	6
1	IV	Molakalmuru (TP)	15797	7954	7843
2	II	Challakere (TMC)	55194	27588	27606
3	I	Chitradurga (CMC)	140206	70132	70074
4	V	Matadakurubarahatti (CT)	5884	3011	2873
5	IV	Holalkere (TP)	15783	8004	7779
6	V	Chikkajajur (CT)	6236	3024	3212
7	III	Hosdurga (TMC)	28370	14543	13827
8	II	Hiriyur (TMC)	56416	28126	28290

Population Growth:

Chitradurga district recorded 9.33 per cent growth rate during the decade 2001-2011. The decadal growth rate reduced by 6.3 per cent compared to the previous growth rate between 1991-2001. The district shows a fluctuating trend in decadal growth rates. In terms of absolute number, population increased by 1,41,560 persons during the decade 2001-2011. The decadal change in rural areas is 6.94 per cent, while in urban places, the growth rate is 20.16 per cent.

Density:

The density of population is defined as the number of persons per square kilometer. As such, the density recorded as per 2011 Census is 197 persons per sq.km. from a density of 42 persons per sq.km. in 1901, it increased gradually to 197 in 2011. At taluk level, the density ranges between as low as 164 in Hosadurga taluk to 306 in Chitradurga taluk.

Sex Ratio:

The sex ratio is defined as number of females to 1000 males. According to 2011 Census, the sex ratio of the district is 974. The ratio increased by 18 points compared to 2001 Census and ranks at 20th among the districts in the State. The sex ratio by residence has increased both in rural and urban areas. The increase is substantial in urban areas wherein it increased by 46 points compared to an increase of 11 points in rural areas.

The 0-6 child sex ratio is 947 female children to 1000 male children in the district and increased by 1 points compared to 2001 Census. This ratio in rural remains the same over the decade and increased by 4 points in urban. In terms of 0-6 child sex ratio, the district ranks at 19th place among the districts in the State.

Literacy:

In Census, a person aged 7 and above is considered literate, if he or she can read and write with understanding in any language. As per definition, the literacy rate for Chitradurga district is 73.71 per cent in 2011 as against 64.45 per cent in 2001, an increase of 9.26 per cent during the decade. The gap in male – female literacy rate narrow down to 15.49 per cent in 2011 Census compared to 20.89 per cent in 2001. This gap has reduced both in rural and urban areas.

Scheduled Castes and Scheduled Tribes:

Total Scheduled Castes (SCs) population reported in the district is 3,89,117 persons, constituting about 23.45 per

cent of total population of the district. The decadal growth rate of Scheduled Castes as per 2011 Census is 15.64 per cent. The proportion of Scheduled Castes in the district to total SCs in the State is 3.71 per cent. The growth rate of Scheduled Tribes (STs) during the decade 2001-2011 is 13.64 per cent and about 18.23 per cent of the district's total population are Scheduled Tribes. The share of district's STs to total Scheduled Tribes in the State is 7.12 per cent. The decadal change in the growth rate of SCs and STs in urban areas has reported to be high compared to the growth rate in rural areas. However, the decadal change among the SCs in urban areas is more significant which is 31.78 per cent compared to 13.33 per cent in rural areas.

Work Participation Rate:

In Census, a worker is a person who has participated in any economically productive activity with or without compensation or profit and a reference period to define a person as worker was one year preceding the date of enumeration. As per the definition, of the total population in the district, 51.62 per cent are workers, which is the highest percentage of workers reported among the districts in the State. The male and female workers are 61.05 and 41.93 per cent respectively.

The workers were further classified as main workers and marginal workers. The main workers are persons who worked for 6 months or more during the reference period and persons worked for less than 6 months are marginal workers. As classified above, of the total workers, 77.92 per cent are main workers and 22.08 per cent are marginal workers. The gender composition of workers as per Census classification further explains that male main workers are comparatively higher than female main workers and female marginal workers are good in number than male marginal workers.

BRIEF ANALYSIS OF PCA DATA BASED ON INSET TABLES 1 TO 35

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 2001-2011

Sl. No.	Tahsil	Population						Percentage decadal variation 2001 - 2011			Percentage urban population	
		2001			2011							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	2001	2011

3	Chitradurga	376,506	251,336	125,170	423,879	272,142	151,737	12.58	8.28	21.22	33.25	35.80
4	Holalkere	197,766	183,192	14,574	207,260	185,241	22,019	4.80	1.12	51.08	7.37	10.62
5	Hosdurga	219,445	196,957	22,488	235,116	206,746	28,370	7.14	4.97	26.16	10.25	12.07
6	Hiriyur	264,719	215,913	48,80	286,133	229,717	56,416	8.09	6.39	15.59	18.44	19.72
Chitradurga		**1,517,896**	**1,243,658**	**274,238**	**1,659,456**	**1,329,923**	**329,533**	**9.33**	**6.94**	**20.16**	**18.07**	**19.86**

Decadal variation in population of taluks by residence is indicated in the above table. Data reveals that overall growth of 9.33 per cent has been recorded in the district during the decade. The growth of population in rural areas of the district is 6.94 per cent while in urban areas it is 20.16 per cent. Thus, the population of the district has grown faster in urban areas. Among the taluks, Chitradurga (12.58 per cent) has registered highest growth rate and Holalkere (4.80 per cent) the lowest in total population.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2011 (RURAL)

SL.No.	C.D. Block	Total number of inhabited villages	Total rural population			Number and percentage of village	Population less than 200

175 (18 %)	**242,861**	**235,766**	**24 (3 %)**	**79,351**	**76,844**	**2 (0 %)**	**12,852**	**12,749**

The above table indicates the number and percentage of inhibited villages with different population size ranges as per 2011 Census. Data reveals that out of 948 inhabited villages, highest number of villages 309 (33 per cent) is in the population range of 1000-1999. Only two villages are having a population range of 10,000 and above and 75 villages are in the population range of less than 200.

TABLE 3: NEW TOWNS, DE-NOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2011 CENSUS

(a)	New	
	(i) Statutory Town	Nil
	(ii) Census Town	Matadakurubarahatti(CT) Chikkajajur(CT)
(b)	Denotified	Nil
	(i) Statutory towns of 2001 denotified and also did not satisfy the criteria to be treated as census towns	Nil
	(ii) Statutory towns of 2001 census denotified but identified as census towns based on demographic and economic criteria	Nil
	(iii) Census towns of 2001 census are notified as statutory town in 2011 Census	Nil
(c)	Declassified*	Nil
(d)	Wholly merged with other town(s)	Nil

*Declassified means the census towns of 2001 Census which failed to satisfy the demographic and economic criterion

TABLE 4: SEX RATIO OF THE STATE AND DISTRICT, 1901-2011

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	983	984	976	967	964	999
1911	981	984	960	968	969	942
1921	969	975	936	947	948	934
1931	965	972	927	952	955	913
1941	960	965	935	937	940	911
1951	966	974	941	942	951	865
1961	959	973	913	942	951	875
1971	957	971	913	946	956	879
1981	963	978	926	952	960	904
1991	960	973	930	951	957	919
2001	965	977	942	955	957	948
2011	973	979	963	974	969	994

Note :- Sex ratio has been defined here as the number of females per 1000 males

The above table gives the sex ratio for the total, rural and urban population of the State as well as that of the district from 1901 to 2011 census. It is observed that the State has shown a decreasing trend in the sex-ratio since 1901 Census (983) till 1971 Census (957). However in 2011 Census, the State has registered a better sex-ratio of 973, higher than the ratios of the previous Censuses of 2001 and 1991. For the district, the sex ratio in 1901 Census was 967 and thereafter the trend fluctuated over the decades. However, in 2011 Census, the district has recorded a better sex-ratio of 974, higher than the ratio of the 2001 Census (955). Further, from 1911 to 2001 Census, the sex-ratio in rural areas have been higher than in urban areas, for the State as well as the district and the same trend is seen for the State as a whole in 2011 Census. However, in 2011 Census, deviating from the past trend, Chitradurga district recorded higher sex ratio in urban areas than in rural areas.

TABLE 5: SEX RATIO BY SUB-DISTRICT, 2011

SL.No.	Name of Sub-district	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	05503-Molakalmuru	961	958	986
2	05504-Challakere	967	962	1001
3	05505-Chitradurga	976	964	996
4	05506-Holalkere	974	971	997
5	05507-Hosdurga	973	976	951
6	05508-Hiriyur	985	980	1006
	District: 566-Chitradurga	**974**	**969**	**994**

The above table represents the taluk-wise sex-ratio for the total, rural and urban population of the district. There are 974 females per 1000 males in the district. The sex-ratio in urban areas (994) is higher than that of rural areas (969). Taluk-wise comparison reveals that the sex-ratio in Hiriyur taluk is highest among all taluks. Further, the sex ratio in urban areas is comparatively higher than rural areas in all taluks except Hosdurga taluk, where the ratio is marginally higher in rural areas. The sex ratio is particularly favourable to women in urban areas of two taluks ie.,Challakere and Hiriyur taluks.

TABLE 6: SEX RATIO BY CD BLOCKS, 2011

Sl.No.	Name of CD block	Sex ratio
1	2	3
1	0071-Molakalmuru	958
2	0072-Challakere	962
3	0073-Chitradurga	964
4	0074-Holalkere	971
5	0075-Hosdurga	976
6	0076-Hiriyur	980
	Total	**969**

This table highlights the data on sex ratio by C. D. Block, which includes all villages in the district. The highest sex-ratio is reported from Hiriyur C.D. Blocks (980) and the lowest sex-ratio is reported from Molakalmuru C.D. Blocks (958).

TABLE 7: SEX RATIO OF RURAL POPULATION BY RANGES, 2011

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2011	Percentage distribution of population
1	2	3	4	5
Less than 700	15	1.58	1479	0.11
700 - 749	4	0.42	302	0.02
750 - 799	10	1.05	1484	0.11
800 - 849	18	1.90	6269	0.47
850 - 899	64	6.75	49958	3.76
900 - 949	235	24.79	337427	25.37

Variations in child sex ratio has been a long observed phenamenon and have undergone considerable debate among the researchers and policy makers from time to time. Although the observed variations in the ratio favouring males is a biological fact, continued decline over the periods causes great concern among the policy makers. The talukwise child sex ratio for 2011 Census is given in the above table which reveals that there are 947 females per 1000 males in the district. The least child sex ratio is recorded in urban areas of Hosdurga taluk, where the ratio is 909. The highest child sex ratio is reported from the urban areas of Molakalmuru (978).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2011

Sl. No.	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females

The distribution of workers by economic activity is presented for the C.D blocks of the district which includes only the rural population. The above table shows that the percentage of cultivators and agricultural labourers are higher than household industry workers and other workers in all C.D blocks. The above distribution points out that agricultural activity is predominant in Holalkere C.D block, where 83.99 per cent of them are involved in this activity. In rest of the block more than 74 per cent are involved in this activity.

The sex wise distribution of workers by economic activity is presented for the urban areas of the district. The total number of workers, main and marginal constitute 37.43 per cent of total urban population. Cultivators and agricultural labourers are 6.33 and other workers category constitute 87.9 per cent. Highest percentage of main and marginal workers (40.97 per cent) and Cultivators (15.62 per cent) has been reported from Chikkajajur (CT). The highest percentage of female agricultural labourers has also been reported from Chikkajajur (CT) (35.22 per cent).

BRIEF ANALYSIS OF VILLAGE DIRECTORY AND TOWN DIRECTORY
DATA BASED ON INSET TABLES 36 TO 45

Note:-

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

** Telephone includes Telephone,PCO and Mobile.

This table reveals brief analysis of various amenities which are available in C.D. Block of the district. It can be seen from the above table that good percentage of inhabited villages (93.14 per cent) have educational facilities and 57.49 per cent have medical facilities. The position of medical facilities varies from 41.79 per cent to 68.68 per cent in the C.D Blocks. All the villages have drinking water and telephone facility. Post office and transport and communication facilities are available for 30.7 and 78.06 per cent of villages respectively. Availability of banking facililty is not satisfactory (8.23 per cent). About 13.4 per cent of villages have agricultural credit society and 84.28 percent of villages are approachable by pucca road. Almost all villages (99.47 per cent) have power supply in the district.

Note:-

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

** Telephone includes Telephone,PCO and Mobile.

C.D. Blockwise distribution of population served by different amenities is presented in this table. Data reveals that 99.25 per cent of the rural population is served by educational institutions while 84.57 per cent have medical facility. Drinking water facility and telephone is available to the entire (100 per cent) rural population. About 92.63 per cent of population has transport and communications facility and 53.7 per cent of rural population is served with post facility. Only 20.34 percent of the rural population have banking facility whereas 27.58 per cent of them have the facility of agricultural credit society. Nearly 92.93 per cent of rural population have pucca roads and 99.99 per cent of them have power supply.

TABLE 38: DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2011

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2-4)
1	2	3	4	5
1. Education:-				
(a) Primary school	61	5	0	66

(b) Cooprative bank	35	156	757	948
7. Agricultural credit societies	254	322	245	821

Degree college includes Art,Engineering and Medicine

Hospital includes Allopathic & Alternative Medicine

Post office includes post office, telegraph office and post & telegraph office

Telephone includes Telephone, PCO and mobiles

Bus includes private and public

There are 66 villages which do not have any primary school facility; out of this for 61 villages, primary school is located at a distance of less than 5 km. Totally 280 villages do not have middle school, out of which 221 villages have this facililty at a distance of less than 5 km. Similarly 943 villages do not have degree college, out of which 152 villages have this facililty at a distance of less than 5 km. and 316 villages have this facililty at a distance of 5-10 km. Of 947 villages not having hospitals 149 have this at a distance of less 5 km. and for 281 villages, it is available at 5-10 km. distance. For 254 villages primary health centers are available at a distance of less than 5 km. Regarding post office good number of villages has this facility at a distance less than 5 kms. Majority of the villages have banking facillity at a distance of 5-10 km. or more than 10 km. and for 254 villages agricultural credit socities are available at a distance less than 5 km. The other details can be seen from the above table.

Note:-

* Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

** Telephone includes Telephone,PCO and Mobile.

The villages have been arranged according to the distance in ranges from the nearest statutory tow n. Majority of the villages are little far from their nearest town, particularly 302 and 611 villages are situated at a distance of 5-15 km. and 16-50 km. respectively. The distance from the nearest statutory town to the village has been highly correlated with type of amenities available as per 2011 Census. Irrespective of the distance, villages have certain amenities.

Note:-

***** Education includes all education facilities.

^ Medical includes all medical facilities.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, railway facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

****** Telephone includes Telephone,PCO and Mobile.

Table No. 40 depicts the distribution of villages according to population range and availability of certain amenities. Irrespective of the villages distributed under different population ranges, amenities like drinking water and telephone is available to all the villages. Medical facility is available to all the villages having population 2000 and above. Education facility is available to 93.14 percent of the villages. Post office facility is available for 30.7 per cent of villages and transport and communication facility is there for 78.06 percent of villages. Irrespective of the population size, more than 90 percent of the villages do not have banking facility and agricultural credit society facility is available for 13.4 percent of villages. Almost all the villages (99.47 percent) have power supply and 84.28 percent of them are approachable by pucca road.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2011

Sl. No.	Name of CD Block	Number of inhabited villages	Total area (in Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	0071-Molakalmuru	78	62318.81	59.96	14.74
2	0072-Challakere	182	195538.15	64.86	14.28
3	0073-Chitradurga	173	124981.29	71.40	14.14
4	0074-Holalkere	163	97412.22	61.46	19.89
5	0075-Hosdurga	201	126802.47	56.25	12.68
6	0076-Hiriyur	151	163160.94	62.43	26.15
	Total	**948**	**770213.88**	**63.16**	**17.23**

Note:- Cultivable area= irrigated area + unirrigated area

This table depicts the distribution of villages according to land use. Data reveals that, only the cultivable area of the rural district has been taken into consideration which include both irrigated and un-irrigated areas. The cultivable area of the rural portion comprise of 63.16 per cent of the total area. Among the C. D. Blocks Chitradurga is having the highest percentage of cultivable area i.e. 71.40 per cent. The percentage of irrigated area to the total cultivable area for the district is 17.23 per cent and it is highest in Hiriyur C. D. Block (26.15 per cent).

TABLE 42: SCHOOLS/ COLLEGES PER 10,000 POPULATION IN TOWNS, 2011

Sl. No.	Name of the town	Type of educational institution				
		Primary	Middle	Secondary / matriculation	Senior secondary	College
1	2	3	4	5	6	7
1	803118-Molakalmuru (TP)	13	11	6	1	1
2	803119-Challakere (TMC)	8	8	5	1	1
3	803120-Chitradurga (CMC + OG)	10	6	3	2	0
4	605618-Matadakurubarahatti (CT)	10	10	3	2	0
5	803121-Holalkere (TP)	13	12	10	3	1
6	605820-Chikkajajur (CT)	18	14	10	3	2
7	803122-Hosdurga (TMC)	8	9	6	2	0
8	803123-Hiriyur (TMC)	6	8	4	1	1
	Total	**86**	**78**	**47**	**15**	**6**

Note- * College includes Arts/ Science/ Commerce College (Degree Level and above)

The types of educational institutions per 10,000 population for the urban district is provided in the above table. The urban district has 86 primary schools,78 middle, 47 Secondary/Matriculation, 15 Senior secondary and 6 college per 10,000 population. The town wise data is provided in the above table.

TABLE 43: NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2011

Sl. No.	Name of the town	Number of beds in medical institutions per 10,000 population (Approx. numbers)
1	2	3
1	803118-Molakalmuru (TP)	132
2	803119-Challakere (TMC)	51
3	803120-Chitradurga (CMC + OG)	70
4	605618-Matadakurubarahatti (CT)	0
5	803121-Holalkere (TP)	132
6	605820-Chikkajajur (CT)	0
7	803122-Hosdurga (TMC)	104
8	803123-Hiriyur (TMC)	48
	Total	**537**

The number of beds in medical institutions per 10,000 population in the towns of the district is presented in the above table. The urban district reported 537 beds per 10,000 population. The highest of 132 beds is reported from Holalkere (TP).

TABLE 44: PROPORTION OF SLUM POPULATION IN TOWNS, 2011

Sl. No.	Name of the town having slum	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	803118-Molakalmuru (TP)	15797	4097	25.94
2	803119-Challakere (TMC)	55194	15395	27.89
3	803120-Chitradurga (CMC + OG)	145853	29297	20.09
4	803121-Holalkere (TP)	15783	4530	28.70
5	803122-Hosdurga (TMC)	28370	6315	22.26
6	803123-Hiriyur (TMC)	56416	22530	39.94
	Total	**317413**	**82164**	**25.89**

The slum population of the urban district is 25.89 per cent of the total urban population. The highest of 39.94 per cent of slum population is reported from Hiriyur (TMC) and the lowest 20.09 per cent from Chitradurga (CMC+ OG). The table above provides the data for all the towns of the district.

TABLE 45: MOST IMPORTANT COMMODITY MANUFACTURED IN TOWNS, 2011

Sl. No.	Name of the town	Name of three most important commodities manufactured
1	2	3
1	803118-Molakalmuru (TP)	Silk Sarees, Bricks
2	803119-Challakere (TMC)	Ground Nut Oil, Edible Oil
3	803120-Chitradurga (CMC + OG)	Cotton, Groundnut Oil, Wood Works
4	605618-Matadakurubarahatti (CT)	Cotton, Sun Flower Oil
5	803121-Holalkere (TP)	Cement Bricks, Coconut Oil

TABLE 45: MOST IMPORTANT COMMODITY MANUFACTURED IN TOWNS, 2011

Sl. No.	Name of the town	Name of three most important commodities manufactured
1	2	3
6	605820-Chikkajajur (CT)	Coconut Oil
7	803122-Hosdurga (TMC)	Coconut Oil, Coir Products, Furniture
8	803123-Hiriyur (TMC)	Sugar, Coir Products, Groundnut Decorticators

Different commodities manufactured and exported from the towns of the district are given in the above table.Edible oils like ground nut and coconut oils and coir products are the main commodity manufactured and exported from most of the towns. Other than that silk sarees, bricks, furniture etc. are the other items manufactured and exported from these towns of the district.

Archaeology

The pre-historic archaeology in the district requires detailed study of two places, namely Chandravalli and Brahmagiri.

In the valley of Chandravalli an ancient city flourished, as per the current story among the people. The iron-sarathy and painted pottery suggest a possible pre-historic iron-age and existence of man during neo-lithic period to the middle age. The Satavahana regime dates to the first and second century A.D. During the British Commission of government, a number of lead coins were collected and sent to British Museum and elsewhere. Lead coins belonging to the Satavahanas, Roman silver coins and ornaments of gold, silver and copper were picked up near the 'Tiger rock' and a new water course. Walls constructed of ancient bricks were faintly visible. Painted and polished potteries were quite common. There are the rock inscriptions of Mayurasharva Kadamba, which reveal the existence of prosperous town in the Satavahana and early Kadamba periods.

Brahmagiri has earned a place in the archaeological map of India since the discovery of Ashoka's edicts round about this place. This important discovery revealed that the Maurya Empire extended at least upto Chitradurga district.

There were three inscriptions discovered of which the best preserved is the Brahmagiri inscription, engraved on the top of a great gneiss boulder, at a point called "Ganjigunte Mule".

All the three inscriptions are in Brahmi characters, expressed in Prakrit language. The main object of the edicts is to exhort the classes of people to greater effort in pious duties as the king adduces his own example.

A study of the ground went to show that an extension town of about the Maurya times had flourished in the neighbourhood of the Brahmagiri inscriptions.

Seven centuries ago there was also the prosperous town of Haneya flourishing to the west of the hill. The Akkathangi temple, the Pagedesalu hill temple, the Jain temple, the fort walls near the fort of the hills, the steps leading from the fields to the hill and the Trishankeshwara and the Bhagyalakshmi temple, the basement of two palatial buildings and the Hulikunte tank on the hill are all said to have belonged to this town.

There is also an inscription of the Hoysala king Vira Ballala II (A.D. 1190) who proudly claims that he conquered the hill fort of Haneya and founded the city of "Vijayanagara".

Brief description on places of religious and historical importance in villages:

Challakere taluk

Dodderi: The historical importance of this place lies in the fact that this was founded by Thimmanna Nayaka, the founder of a line of chiefs known as the Nidugal chiefs. Dodderi was once a centre of paper manufacture.

Naikanhatti: Naikanhatti is known in historical accounts as Hatti. This was a seat of administration of a small chiefdom during the 17th Century AD. The village has a tomb-shrine dedicated to a saint named Tippe Rudrayya who lived in the early 18h Century. On account of his

spiritual powers he became the preceptor of the chiefs of Hatti family. The construction of the local tank, one of the biggest in the district, is attributed to this saint.

Chitradurga taluk

Ingladhal: Though this village and its surroundings are for long been known for the sulphur and copper deposits, it is during the last decade that exploration of the ore was begun. The ash mounds and the slag found in association with megaliths, indicate that this place was in the remote past, a centre of mining and metallurgy.

Sirigere: This is an important religious centre and the headquarters of the famous Veerashaiva Matha known as Taralabalu Matha. This religious institution has for quite some time been running several education institutions for the benefit of the general public.

Hiriyur taluk

Vanivilaspura: Also known as Marikanive, this village has in its proximity a dam built across the river Vedavati. Construction of this dam was completed in 1907 and since then water is being made available for irrigation. Kanive Maramma, the presiding deity of the place, has a shrine and under its auspicious an annual fair is held every August.

Bharmagiri: This is situated in a low fortified hill and named after Bharmanna Nayaka, a Palegar of Chitradurga. The village has a shrine in which the procession image of Kanive Maramma, the presiding deity of Marikanive is kept.

Aimangala: According to an inscription of 975 A.D. this ancient place was known as Ayyapamangala. There is a ruined fort of massive works and a moat all round. The village has a Vaishnava tradition and also a place in ruins. The Virabhadra temple of this village is also an important monument.

Harthikote: This was the headquarters of Harati Chiefs who later occupied Nidugal and came to be known in history as Nidugal chiefs.

Abbinahole: In this place there is a Virgal erected by Nolamba king Aiyapa in 933 A.D. The village has a temple dedicated to Ranganatha, where the main object of worship is a round stone which is believed to be an Udbhava murthy i.e., that which has emerged from the earth of its own accord.

Holalkere taluk

Malladihalli: A saintly social worker named Sri Raghavendra Swamiji has built an Ashrama and over the years has developed here an educational complex and centre for yoga training.

Hosdurga Taluk

Neergunda: This place is interesting as the site of an ancient city. During the fourth century A.D. under the Gangas this was the capital of a Jaina principality. According to tradition, the city was founded in 160 B.C. by Nilashekara, a king from North India and named as Nilavatipattana.

Bagur: This village is known for its famous temple of Channakeshava swamy.

Devapura: The temple of Halarameshwara situated here is a famous religious institution in this neighbourhood. The village has a sacred pond where, on the basis of the Prasada received by the devotee, it is believed, one can foretell the future.

Mathodu: This was a seat of a line of Palegars founded by Giriyappa Nayaka. Mathodu was once upon a time famous for the manufacture of glass bangles.

Sirampura: Formerly known as Budihal, this place has a fort which was built during the 15th Century by a chief who was a subordinate of the Vijayanagara kings. This was one of the prominent centres of insurgency in 1831.

Heggere: This is a centre of pilgrimage for Jains.

Molakalmuru taluk

Siddapura: Brahmagiri, one of the most important sites of archaeological excavations of a micro lithic culture, is situated in this village. According to an inscription dated in 962 A.D. this is the spot where Jatayu the heroic bird killed by Ravana while trying to rescue Sita from the clutches of Ravana. On the Jatinga Rameshwara hill nearby there are several temples such as Rameshwara, Bhogeshwara, Ganesha (with two hands) and the one dedicated to Jatayu.

Three minor edicts of Ashoka have been found here. One of these is located on a hill called Emmetammannana gundu near Siddapura and the other is on a rock called Akshara bonde near Brahmagiri. These two have been declared as protected monuments. The third edict is on a rock called Balegara gundu near Jatinga Rameshwara temple and this

is greatly defaced. The area bounded by these edicts was the site of Ishila, a Mauryan town, which was probably the headquarters of a local division. Excavations have revealed some traces of an earlier town dating back to 8th century B.C. According to inscriptions, in the days of the Hoysalas, there was a town called Haneya at this site.

A number of cromlechs of a variety of shapes and sizes are found in this area. Painted pottery, hundreds of micro-liths such as knives, saws, arrow heads etc. made of chert, chalcedony and flint have been found here.

On Brahmagiri hills there is a temple of Trishankeshwara and a building called Mahal. This Mahal was built by a Veerashaiva guru during the 19th century.

Places of tourist interest in and around the towns of the district:

Chitradurga: Legends connected with this town associate it with two episodes narrated in Mahabharata. Pandavas are said to have stayed here for some time during their exile. A site near this town is pointed out as the site where Bheema was accosted by Hidimbi who instantly fell in love with him. The development later resulted in duel between Bheema and her brother Hidimbasura. Bheema killed the giant and married Hidimbi. Near this site there are temples containing lingas named after each one of the Pandavas brothers and another one dedicated to Hidimba under the name Hidimbeshwara. A large piece of bone which is preserved carefully in this shrine is said to be the remnant of a tooth of the giant.

Chandravalli valley which lies immediately to the west of the fort derives its name from Chandrahasa, the king of Kuntala mentioned in Mahabharata. Chandravalli is one of the very important and ancient archaeological sites in Karnataka. Series of excavations have been conducted here to enable a proper reconstruction of its historical past. Neoliths discovered in the caves of Neralagondi and Baralagondi suggest the existence of a human settlement here during the Neolithic age. The earlier forms of painted pottery and evidences of iron smelting reveal the life pattern during the prehistoric Iron Age. Remnants of walls constructed out of large sized bricks (measuring 18"x9"x3",18"x9"x3 1/2"& 16"x8"x4 ½"), of the painted and polished pottery and a rock inscription of Mayura Sharma Kadamba paint to the existence of a prosperous township at this site during the period of the Satavahanas and the Kadambas. Lead coins of Satavahanas, silver coins of Romans and ornaments of gold, silver and copper have also been discovered here. The excavations at Chandravalli thus opened up a vast vista of time extending over the last three millenniums or even more.

The present name of the town is derived from Chitrakaldurga. There is a lofty hill with a peak which looks like Chatrakal or an umbrella. A number of inscriptions belonging to the Chalukyas, the Hoysalas and the Vijayanagar kings have been found here. The Chitradurga fort is called Yelusuttinakote, i.e., a fort with seven series of enclosure walls. The outermost walls have four gates. There are 18 temples in the upper fort. The height of the walls range from five to thirteen metres depending upon the landscape and the configuration of rock formations. When the fort was intact it had as many as 19 gateways, 33 postern gates, 35 secret entrances and four invisible entrances. Part of the fort which is mainly of mud was built by the Palegars of Chitradurga and that part which is mainly of granite slabs was built by Hyder Ali and Tipu Sultan. At several places huge granite cubes have been neatly cut and joined, apparently without the use of any cementing material.

The main temples here are of Sampige Siddheshwara, Hidimbeshwara, Ekanathamma, Phalguneshwara, Gopalkrishna, Anjaneya,Subbaraya and Basava. In Hidimbeshwara temple, apart from the tooth of Hidimba, there is a huge cylinder made out of iron plates- about 3 metres in circumference and two metres high. This is known as the *bheri* or drum of Bheema.

There is an interesting masonry pot of three metres depth and about seven metres diameter. This is pointed out as the place that was being used for grinding gunpowder during the times of Hyder Ali and Tipu Sultan. There are a series of inter-connected tanks which were meant to conserve the rain water. This device allowed water to flow from one tank to the other in succession with a minimum loss and permitted preservation of large quantities of water for subsequent use. It is said that on account of this wonderful arrangement the fort never suffered from water scarcity throughout its history.

One of the secret entrances into the fort is called Vanake Kindi. The name commemorates the heroic deed of Obavva who with great presence of mind attacked a column of the

enemy soldiers who were stealthily entering the fort one by one. She used the Vanake or the common pestle used for pounding paddy as her weapon and defended the fort. This event occurred when the forces of Hyder Ali laid siege to the Chitradurga fort.

In the lower fort there is a large temple built by the Palegars and dedicated to Uchchangiamma or Uthsavamba, their tutelary deity. About two kilometres north-west of the town is situated Murugharajendra Matha, a famous religious institution of Lingayats.

To the west of the town amidst a group of hills is situated the Ankli Matha. A series of ancient subterranean chambers cut out at different levels, shrines and pedestals may be seen here. An inscription dated in 1286 A .D. belonging to the Hoysala period is found near the Panchalinga cave here. Jogi Matti, one of the highest points of the district is located five kilometres to the south of the town.

Chitradurga is a colourful spot from historical and archaeological points of view and affords immense satisfaction to the tourist interested in history. Its scenic beauty, as well as architectural and defence installations have been captured in the films with historical and also social themes produced in Kannada.

Challakere: Neither the town nor its immediate neighbourhood has any place of tourist interest. The town however enjoys State wide reputation as a trading centre. The weekly shandy held here is said to be one of the biggest shandies of the district.

Hiriyur: This town was founded in the 16th century by Keshava Nayaka, a chief of Mayasandra. The ancient temple of Teru-Malleahwara here is built in Dravidian style. There is a 15 metre high deepastamba (lamp pillar) having 8 lamps in the shape of iron cups each of which is capable of holding 10 seers of oil. These lamps are lighted once during the Kartika masa.

This place is renowned for having the oldest dam in Karnataka, Mari Kanive, which is built on the Vedavati river. Vani Vilas Sagar is an artificial lake built by the Maharaja of Mysore across river Vedavati, having dimensions 162 ft by 1300 ft, this reservoir comprises two pavilion halls built in saracenic style.

Holalkere: During the 10th century, Holalkere is said to have been an important Jaina centre. The present town was founded by one Boya Gauda, under the protection of Doddanna Nayaka, a chief of Dhummi. The place is famous for the three metre high idol of Lord Ganesha called Bailu Ganapathi.

Hosdurga: This town has the remnants of a hill fort which was erected by Chikkanna Nayaka, a Palegar of Chitradurga.

Molakalmuru: Molakalmuru is a place of great antiquity. To the north of the present township, the Kadambas had built a fortified town called Lunkeyakote. Nearby is a temple of Lunkeshwara said to have been built by a Kadamba prince during the 10th century. The unique feature of this temple is that it is served by a succession of Gosayins from North India. A large reservoir constructed by a Chief of Hatti, a rock called Kuguva Bande (that which produces a chain of echoes), and a boulder, on which a Yamaka in praise of Kalidasa is engraved are the other interesting objects in the vicinity of this town. The silk weaving industry of the place enjoys wide reputation and provides employment and sustenance to a considerable proportion of population of the town.

Scope of village and Town Directory – column heading wise explanation and coverage of data.

Village Directory 2011 Census:-

The Village Directory is being compiled for both inhabited and un-inhabited villages. In the village directory both private and Government facilities/institutions have been given. In case of un-inhabited /depopulated villages, the location code number, name and area of the village is being given universally in Village Directory. The columns relating to the amenities and land use pattern, etc. being left blank and it will be noted against the name of the village that it is un-inhabited/depopulated. The Appendices to Village Directory and Inset Tables based on village Directory data are also prepared for inhabited villages.

In the Village Directory format for 2011 Census, there are 121 columns and the details thereon are as follows:

Column No. 1: Serial Number: - Self explanatory. All the villages within the CD block are presented serially in the ascending order of their location code number.

Column No. 2: Name of village: - Self explanatory. The names of the villages are shown against this column. This also includes the forest and uninhabited villages.

Column No. 3: Location Code Number of village:- The location code number of the villages are shown against this column.

Column No. 4: Area of the Village: - The area of the villages is given in hectares.

Column No. 5: Total Population: - The total population of the village as per 2011 Census is given against this column.

Column No. 6: Number of Households: - The number of households as per 2011 Census is given in this column.

Amenities: - The availability of different infrastructural amenities such as education, medical, drinking water, post and telegraph, banks, credit societies, recreation and cultural facilities, communication, power, etc., in each village is given in the Village Directory. Wherever the amenities are not available in the village, the distance range code viz; 'a' for <5 km., 'b' for 5-10 km. and 'c' for 10+ km. of the nearest village/town where facility is available is given. Column wise details are given below:

Column No. 7 – 20 Educational Facilities: - All the different educational facilities available in the village is given under these columns. Nursery/LKG/UKG classes are included in Pre-Primary Schools. Classes up to class V included in Primary School. Classes from VI to VIII are included in the Middle school. Classes IX and X included in Secondary School. Classes XI and XII are included in Senior Secondary School. In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively. The information on the entire educational institutes is given under these columns.

Column No. 21 to 38 - Medical Facilities: - All the different medical facilities available in the village are given under these columns.

Column No. 39 to 46 - Drinking Water: - The information on availability of various types of the drinking water facility within the village is given under these columns.

Column No. 47 to 50 – Availability of Toilet and others:- The information on availability of toilet, Bio-Gas etc., available in the village is given under these columns.

Column No. 51 to 67 Communication (Post & Telegraph and transport):- The information on communication and Post Office, Sub-Post Office, & Telegraph Office, Village PIN Code number, Phone-Landlines, Mobile Phone, Private Courier Facility, Internet Café, etc., available in the village is given under these columns. The information on all various transport facilities whether public/private transport like Bus, Railway Station or Navigable waterways, Taxi, Van, Tractors etc., available in the village is also given under these columns.

Column No. 68 to 79 – Village connected to High ways, Village Roads, Banks and Credit Societies: - The information on all roads connected to village is given under these columns. These include National Highway, State Highway, District Roads and other district roads connected to the village, Pucca roads, Kutcha Roads, Water Bounded Macadam Roads, Navigable Water Ways and Foot Paths is given under these columns. Further, the information on availability of banks, ATM and Agricultural Credit societies in the village is given under these columns.

Column No. 80 to 96 Miscellaneous Facilities: - The information on various miscellaneous facilities available in the village is given under these columns. These includes Self -Help Group, Public Distribution Shop (PDS), Mandi/ Regular Market, Weekly Haat, Agricultural Marketing Society, Nutrition Centre (ICDS), Anganwadi Centre, ASHA, Community Centre, Sports Fields, Sports Club/Recreation Centre, Cinema/Video Halls, Public Library, Public Reading Room, News Paper Supply, Assembly Polling Station, Birth and Death Registration Office.

Columns No. 97 to 100 – Electricity: - Availability of Power Supply in the village, whatever may be the form of its use is given in these columns. These include Electricity for Domestic Use, Electricity for Agricultural Use, Electricity for Commercial Use and Electricity for all purposes.

Column No. 101 and 102 -Nearest Town: - The name of the nearest town along with the distance range code is given in these columns.

Land use and Irrigation: - The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the following 9 categories.

(i)-Column No. 103 -Forests:-This includes all lands classified as forest under any legal enactment dealing with forests or administered as forests, whether state-owned or

private, and whether wooded or maintained as potential forest land. The area of crops raised in the forest and grazing lands or areas open for grazing within the forests remain included under the forest area.

(ii)-Column No. 104- Area under non-agricultural use:- This includes all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals and other lands put to uses other than agriculture.

(iii)-Columns No. 105- Barren and un-culturable land:- This includes all barren and unculturable land like mountains, deserts, etc. Land which cannot be brought under cultivation except at an exorbitant cost should be classified as unculturable whether such land is in isolated blocks or within cultivated holdings.

(iv)-Column No. 106- Permanent Pastures and other Grazing Lands:-This includes all grazing lands whether they are permanent pastures and meadows or not. Village common grazing land is included under this head.

(v)-Column No. 107- Land under Miscellaneous Tree Crops, etc.:- This includes all cultivable land which is not included in 'Net area sown' but is put to some agricultural uses. Lands under Causing trees, thatching grasses, bamboo bushes and other groves for fuel, etc. which are not included under 'Orchards' are classified under this category.

(vi)-Column No. 108- Culturable Waste Land: - This includes lands available for cultivation, whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of the five years.

(vii)-Column No. 109- Fallow Lands other than Current Fallows: - This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.

(viii)-Column No. 110- Current Fallows: - This represents cropped area, which is kept fallow during the current year. For example, if any seeding area is not cropped against the same year it may be treated as current fallow.

(ix)-Column No. 111- Net Area Sown: - This represents the total area sown with crops and orchards. Area sown more than once, in the same year is counted only once.

Column No. 112- Total Irrigated Land Area: - It includes all land which is cultivable and irrigated by any source of irrigation. The total irrigated area of the village has been given under this column.

Column No. 113- Total Un-Irrigated land Area: - Un-Irrigated area includes all land which is cultivable but not irrigated by any source of irrigation. The total un-irrigated land area of the village has been given under this column.

Column No. 114 to 118- Area Irrigated by source: - The area irrigated by various source of irrigation in the village have been given under these columns. The different source of irrigation facilities available in the village are as follows: (i)-Canals(C)-Govt. or Pvt., (ii)-Wells/Tube-wells (W/TW), (iii)-Tanks/Lake(T/L), (iv)-Waterfall, (WF) and (v)-Others(O).

Columns No.119 to 121-Three most important commodities manufactured:- The names of three most important commodities manufactured in the village are indicated in this column.

C.D.Block level totals of the Village Directory:-

At the end of entries for the Village Directory of each C.D. Block, the totals of different columns are being given wherever possible. However, in case of some of the columns, it may not be possible to work out the CD Block level totals, in such cases the particular of relevant columns are being left blank against C.D.Block level.

Appendices to Village Directory: - The Village Directory also includes the following appendices:

Appendix –I: Summary showing total number of villages having Educational, Medical and other amenities in villages – C.D. Block level.

Appendix I A: Villages by number of Primary Schools.

Appendix I B: Villages by Primary, Middle and Secondary Schools.

Appendix I C: Villages with different sources of drinking water facilities available.

Appendix II: Villages with 5,000 and above population which do not have one or more amenities available.

Appendix -IV: C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix -V: Summary showing number of Villages not having Scheduled Caste population.

Appendix -VI: Summary showing number of Villages not having Scheduled Tribe population.

Appendix -VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix- VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Note explaining the abbreviations used in Town Directory 2011 Census:-

Statement I :- Status and Growth History:

Column 1 – Serial Number:- Self explanatory

Column 2:- Class, Name and civic status of town:- The Class presented according to population of the towns in 2011 Census is as follows:

Population	Class	Population	Class
100,000 and above	I	10,000 – 19,999	IV
50,000 – 99,999	II	5,000 – 9,999	V
20,000 – 49,999	III	Below - 5,000	VI

The following abbreviations are used to denote the Civic Status of the town.

Civic Status	Codes	Civic Status	Codes
i-Municipal Corporation	M.Corp.	xii – Notified Town Area	NTA
ii-Municipal Committee	MC	xiii – Industrial Notified Area	INA
iii-Municipal Council	M Cl	xiv – Industrial Township	ITS
iv-City Municipal Council	CMC	xv – Township	TS
v-Town Municipal Council	TMC	xvi – Town Panchayat	TP
vi- Municipal Board	MB	xvii – Nagar Panchayat	NP
Vii –Municipality	M	xviii – Town Committee/ Town Area Committee	TC
viii- Cantonment Board/Cantonment	CB	xix – Small Town Committee	ST
ix- Notified Area	NA	xx – Estate Office	EO
x –Notified Town	NT	xxi –Gram Panchayat	GP
xi - Notified Area Committee/ Notified Area Council	NAC	xxii – Census Town	CT

Column 3 - 25: - These columns are self explanatory

Statement II: - Physical Aspects and Location of town, 2009.

Column 1 - 2 Serial number and Name of town: - Self explanatory

Columns 3 to 5 - Physical Aspects:-In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Columns 6 to 12:- Name and road distance of the town (in km.) from the State headquarters, District headquarters, Sub-divisional/Taluk/Tahsil/ Police station/Development Block/ Island HQ., Nearest city with population of one lakh and more, Nearest city with population of five lakh and more, Railway station and Bus route is recorded in these columns respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Statement III – Civic and other Amenities, 2009:-

Column 1 - 2 Serial number and Name of town: - Self explanatory

Column 3 – Road length (in km.):- The information about the road length (in km.) within the limit of the town is recorded in this column.

Columns 4 to 7- System of drainage: - The system of drainage available in the town is indicated in these columns by the following codes:

System of drainage	Codes
Open drainage	OD
Closed drainage	CD
Both drainage	BD

Columns 8 to 11-Number of latrines: - The number of various types of latrines available in the town is indicated in these columns.

Columns No. 12 & 13 – Protected water supply: - The information on source of water supply and system of water storage with capacity available in the town are given in these columns in the following codes:

Column 12 (Source of water supply):-

Tap water	T
Tube-well water	TW
Tank Water	TK
Well water	W

Column 13 (System of water storage):-

Over Head Tank	OHT
Service Reservoir	SR
River Infiltration Gallery	RIG
Bore Well Pumping System	BWP
Pressure Tank	PT

The information on 2 major source of water supply is given in column 12 and the system of water storage with capacity against each in kilo-litres (in bracket) is presented in column 13.

Column No. 14 Fire Fighting Service: - In case the fire fighting service is available in the referent town, 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town is recorded.

Column No. 15 to 19- Electrification (Number of connections):- Different types of electric connections are shown in these columns, i.e., Domestic, Industrial, Commercial, Road lighting (points) and others.

Statement IV: Medical Facilities, 2009:-

Column No. 1 - 2 Serial number and Name of town: - Self explanatory

Column No. 3 to 13 :- The number of various medical institutions such as Hospitals, Dispensaries, Health Center, Family Welfare Center, Maternity and Child Welfare Center, Maternity Homes, T.B. Hospital/clinic, Nursing Homes, Charitable Hospital/Nursing Home, Mobile Health Clinic and Others as available in the town, are indicated in these columns (along with number of beds in brackets).

If a medical facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility available is mentioned.

Column No. 14 - Veterinary Hospital:-The Number of Veterinary Hospitals available in the town is given in this column.

Column No. 15 - Medicine Shop:-The number of Medicine shops available in the town is given in this column.

Statement V: Educational, Recreational and Cultural Facilities, 2009:-

Column No. 1 - 2 Serial number and Name of town: - Self explanatory

Column No. 3 to 15 Educational Facilities:- The information on number of Primary school, Middle school, Secondary school, Senior Secondary school, Arts/Science/ Commerce colleges (of degree level and above), Medical colleges, Engineering colleges, Management Institute/Colleges, Polytechnics, Recognized Shorthand, Typewriting and vocational training Institutions, Non-formal Education Center (Sarva Shiksha Abhiyan Center), Special School for disabled and Others available in the town, are indicated in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility available is mentioned.

Column No. 16 to 23 – Number of Social, Recreational and Culture Facilities :- The information on number of Home Orphanage, Working Women's Hostels, No. of Old Age Home, Stadium, Cinema Theatre, Auditorium/Community halls, Public libraries and Reading rooms available in the town are given under these column.

Statement VI: Industry and Banking 2009:-

Column No. 1 - 2 Serial number and Name of town: - Self explanatory

Column No. 3 to 5 - Names of three most important commodities manufactured: - The names of three most important commodities manufactured in the town are given under these columns.

Column No. 6 to 8 - Number of banks: - The number of banks available in the referent town both Commercial and Co-operative banks are recorded against these columns.

Column No. 9 & 10 – Number of Agricultural and Non Agricultural Credit Societies : - The number of Agricultural and Non Agricultural Credit Societies available in the referent town are given in these columns.

Statement VII: Civic and other Amenities in Slums, 2009:-

This statement VII provides information on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

VILLAGE AND TOWN DIRECTORY

VILLAGE AND TOWN DIRECTORY

Brief Note on Village and Town Directory

Village Directory

Village Directory provides micro level data, which will help the planners in formulation of micro-level developmental plans, as the C. D. Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that of the manner of utilization of the land in the concerned village are furnished in the village directory. The village directory format adopted for the 2011 Census has 396 columns whereas in the 2001 Census there were 23 columns. In 2011 VD/TD, unlike 2001 VD/TD, new items are added, keeping in view of the pace of economic development in the country. The first 23 columns of the tabulation statement, relates to location particulars of the village with location code i.e., State, District, Taluk, C.D. Block, name of the Gram Panchayat and village and its distance from the district and taluk headquarter and nearest statutory town. Column 24-31 gives the details of area, number of households and population of the village as per 2011 Census. Column 32-357 relate to the availability/non-availability of basic amenities such as educational, medical, drinking water, drainage and sanitation, transport and communication, bank, agricultural, non-agricultural and other credit societies and other miscellaneous facilities such as self-help group, anganwadi, ASHA workers, cinema/video hall, community centre, sports club, library, reading room, newspaper etc. Column 357-378 is related to availability of power supply in the village and the most important commodities (agricultural, manufactured and handicraft). Amenities available within the villages are shown in the respective columns and if a particular amenity especially schools, colleges, health centres, transport, communication, banking and recreational facilities are not available in the village, the distance in broad ranges viz., <5 km., 5-10 km and 10+ km. of nearest place where the facility available to that particular village is indicated with codes 'a', 'b' and 'c' respectively. Column 379-396 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, unirrigated, barren and uncultivable, culturable waste, fallow lands, current fallow lands and area under non-agricultural uses.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on all the statutory towns in the district, on aspect such as growth history, physical aspects and location of towns, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade and commerce, industry and banking in the towns, civic and other amenities in the slum areas of the town.
