Motif

FORTRESS AND TEMPLES ON THE HILL

Chitradurga Fort or as the British called it Chitaldoorg, straddles several hills and a peak overlooking a flat valley in the town of Chitradurga. Chitradurga owes its name to Chitrakaladurga, or Picturesque castle. This is a massive fortress on top of granite hills that rises dramatically from the ground. The first instance of fortification at Chitradurga is by Kamageti Timmanna Nayaka around 1562 A.D. Obanna Nayaka, also known as Madakari Nayaka, declared his independence from Vijayanagara Empire and wrested the fort. From 1620 A.D. onwards Chitradurga continued to be held by his successors until 1779 A.D. when it was taken over by Haider Ali. Coming under the class of Giridurga, the fort of Chitradurga occupies a granatoid hillock. Popularly known as *'Yelu Suttina Kote'*, the fort has seven lines of defence with bastions of various shapes at regular intervals of which three are at the foot of the hill and the remaining four over the hill.

The outermost wall has four gateways, one on each side. Zig-zag entrances are provided through these seven lines of fortification with batteries and magazines. The height of the wall of each line varies from 8 to 15 mt. At places brick walls of 1.21 to 1.82 mt. are also used to add to the height. The three outer walls of defence are provided with deep broad moats. The fortification once had nineteen gateways, thirty eight postern-gates, thirty five secret entrances.

Much of the fort was strengthened by Haider Ali and Tipu Sultan in stone. Inside these fortifications, there are shrines dedicated to Sampige Siddeshwara, Hidimbeswara, Phalguneshwara, Gopalakrishna, Ganesa, Anjaneya and Ekanatheshwari. Secular structures like Murugharajendra Matha and subsidiary structures like granary, oil tanks and massive grinding stones are of the post-Vijayanagara period. The ruins of palaces built in mud are also encountered. To facilitate the collection of rain water, there were many natural and stone built tanks.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)-Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sri T. K. Anil Kumar, Director of Census Operations, Karnataka. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division**.** I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.
Dated:- 16-06-2014

P R E F A C E

Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India has traced the history of the district Census Handbooks in the foreword to the 2011 series of the District Census Handbooks (DCHBs). He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2011 Census. It also contains a wealth of information regarding villages and towns which throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A - contains information regarding each village and town (Village Directory and Town Directory – non census data collected from various sources) and Part B – containing the population data collected during 2011 Census - the Primary Census Abstract (PCA). The data published in Part B was collected during February-March 2011 in the Population Enumeration.

The process of data collection for the Village Directory and Town Directory (Part A) commenced in 2009 and the reference date is 31.12.2009. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the District Census Handbooks 2001. The Household Schedules, which were canvassed to collect the population data during 2011 Census, were scanned and data captured was processed electronically through ICR (Intelligent Character Recognition) Technology. The Primary Census Abstract (PCA) was generated centrally on the computers by the Office of the Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledges their co-operation.

I take this opportunity to offer my thanks to Dr. C. Chandramouli, I.A.S. the Registrar General & Census Commissioner, India for his valuable guidance and support. I appreciate the supervision and support given by Sri N. Manjini, Joint Director and also thankful to all the officers and officials of this Directorate who have been relentlessly involved in the compilation of this volume.

I am highly grateful to Dr. Pratibha Kumari, Assistant Registrar General (SS), Dr. R.C.Sethi, Ex-Addl. RGI, Shri Deepak Rastogi Addl. RGI. for their guidance and Shri A.P. Singh, Deputy Registrar General (Map), who provided the technical guidance in the preparation of maps. My thanks are also due to Shri A.K. Arora, Joint Director of Data Processing Division for generating the final formats of this publication under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP), ORGI.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

Chitradurga district has a hoary past dating back to the pre-historic and legendary times. According to a tradition, it was near the Jatinga Rameshvar hill of this district that Jatayu challenged Ravana when, having abducted Sita, the latter was passing through this part of the country with her on his way to Lanka. According to another, during the period of their exile the Pandava brothers and their mother Kunti stayed for some time near Chitradurga hills. At that time, the Chitradurga hill was the abode of Hidimbasura - a cannibal, who, along with his sister Hidimbi, was a source of great terror to the people of the neighbourhood. The turn of events that followed the arrival of Pandavas led to a duel between Bhima and Hidimbasura in which the latter was slain. Bhima then married Hidimbi who vowed to give up her evil ways, and had by her a son named Ghatotkacha.

Some of the pot-sherds discovered in the pre-historic sites of the district are stated to be similar to those found in the Indus Valley, Sumer and Crete of the 3rd millennium B.C. Further, the ancient local culture which has been designated as "Roppa Culture" is said to be similar to the campiguin culture of France belonging to the period from 8000 B.C. to 6000 B.C. Chandravalli Valley which is located immediately to the west of the fortified hill of Chitradurga is supposed to have got its name from Chandrahasa the pious king of Kuntala Desha.Neoliths discovered in the water courses and at Baralagondi and Neralagondi villages located close to this valley have established the fact that this valley was inhabited by man during the Neolithic period. Scientific excavations in Chandravalli Valley have yielded lead coins belonging to the Satavahanas, silver coins of Roman origin, and ornaments of gold, silver and copper besides an abundance of painted and polished pottery. Traces of walls constructed out of large-sized bricks of still ancient origin are stated to be faintly visible here and there in the cuttings. These findings and the rock inscriptions of Mayura Sharma Kadamba discovered in this valley amply indicate that a prosperous township existed at this site during the period of Satavahanas and the early Kadambas. The discovery of Ashoka edicts on rocks near Brahmagiri of Molakalmuru taluk by B.L.Rice in 1892 revealed that the Maurya empire extended in the south at least upto Chitradurga district. The Mauryan rule was followed by that of the Satavahanas (230 B.C. to 220 A.D.). That Chitradurga was an important place during that period is borne out by the Satavahana coins discovered at Chandravalli Valley as also by the inscriptions found at places like Malavalli and Banavasi.

After the downfall of the Satavahana rule, their empire disintegrated into numerous principalities. Chitradurga district came under the sway of the Kadambas of Banavasi. The earliest Kadamba inscription found in the district is in Chandravalli Valley and, on Paleolithic grounds it is assigned to 258 A.D. This inscription records the construction of a tank at this place by Mayura

Sharma, the founder of the Kadamba dynasty, and also mentions that Mayura Sharma had defeated the Traikutas, Abiras, Pallavas, Pariyatrikas, Sakasthomas, Sayindakas, Punnatas and Mokaris. With Banavasi as their principal capital, the Kadambas administered a vast territory as independent and powerful rulers till they were subjugated by Kirtivarman I (560-597 A.D.) of the Chalukya dynasty. However, the Kadambas were allowed to rule their territories under the suzerainty of the Chalukya monarchs. With the advent of the Chalukyas in mid-sixth century, for the next 300 years the area comprised in Chitradurga district seems to have been plunged into a state of perpetual unrest arising out ot the struggle for power between the Chalukyas of Badami, the Pallavas of Kanchi and Pandyas of Madurai. All the three rose into prominence in South India more or less at the same time and engaged themselves in intermittent warfare, each seeking constantly to extend its territories at the cost of that of its neighbours. However, by the middle of 8th century, Rashtrakutas of Malkhed rose to power and established their supremacy over the Chalukyas. During this period, the area comprised in Chitradurga distict formed part of Nolambavadi 32000 and continued to be a bone of contention among the imperial powers. The principal local dynasties that administered this region as feudatories were the Nolambas of Henjeru (from 700 to 1050 A.D.) and the Pandyas of Uchchangi (from about 1073to 1183 A.D.)

The earliest Rashtrakuta inscriptions in the district belong to the reign of Govinda II (775-780 A.D.). According to these inscriptions, Govinda II had as his feudatories the son (Charu-Ponnera) and the grandson (Pallavamalla) of Simhapota, a Nolamba Chief who was subordinate to the Ganga kings. The earliest Nolamba records in the district go back to the period of this Simhapota who is introduced in the three of the inscriptions found in Challakere taluk. Krishna II (880-914 A.D.) and Krishna III (940-966 A.D.) are the other prominent Rashtrakuta Kings who have left behind several inscriptions pertaining to their respective periods. Dilipa or Iriva-Nolamba (942-966 A.D.) was the Nolamba feudatory under Krishna III. In about 973 A.D., Karakka II, the last Rashtrakuta king was dethroned by Tailapa of the Chalukyan Dynasty (973-997 A.D.). Tailapa not only regained all territories of his forefathers but also extended his kingdom in all directions. So long as the Rashtrakutas were supreme and strong, the Nolambas were secure under their protection. The moment this power became weak, the Nolambas began to feel the impact of the expansionist attempts of other major powers. Thus, in 974 A.D., the Nolambas were overrun by the Ganga king Marasimha, who, after the conquest, actually ruled over the Nolambavadi country for some time. Next, when the Cholas began their northward thrust, there were conflicts between the Cholas and the Nolambas. However, after the revival of the Chalukayan power in the north (and in the Nolambavadi regions in the 1015 A.D.) the Nolambas switched over their loyalties to the Chalukyas and with this change in allegiance they moved their capital to Kampili located on the banks of Tungabhadra to the west of Bellary.

The Hoysala inscriptions found in the district belong to the reign of Ballala II (1173-1220 A.D.) and of later kings. However, since Nolambavadi has been mentioned as one of the provinces ruled by Vishnuvardhana (1106-1141 A.D) it is evident that at least a part of Chitraduraga district formed part of the Hoysala Kingdom. The Yadavas of Davagiri were the main rivals of the Chalukya and contending for the possession of the Chalukaya and Kalachuri kingdoms. Up to the period of Ballala II i.e., about 1220 A.D., the Hoysalas were supreme. Later, the Yadavas gained an upper hand and the Hoysalas were forced to retire to the south of the Tungabhadra. During the period 1210-1247 A.D., a part of Chitradurga District, more or less corresponding to the present Davanagere taluk came under the rule of Yadavas. The earliest Yadava inscription found in the district is in Kadlabalu in Davanagere taluk and it is dated in 1250 A.D. The supremacy of the Hoysalas and the Yadavas came to an end when these two powers were conquered by the invading Muslim forces from the North under the leadership of Malik Kafur and Mohammed- Bin - Tughlaq. Chitradurga came under the sway of the Vijayanagara empire in the 14th century. The earliest Vijayanagara inscription found in the district is dated in 1354 A.D. During the next two hundred years, the Vijayanagara kings, who exercised paramount powers, had bestowed sundry tracts of their kingdom on the vassal chiefs, bearing various titles, for administrative convenience. Such of the chiefs or palegars as were in the northern part of the kingdom were controlled directly from the capital i.e., Vijayanagara, and those who were in the southern parts were placed under a Viceroy whose seat of the government was at Shirangapatna.

During the chaotic conditions that followed the mortal defeat of the Vijayanagara forces in 1565 A.D., most of the local chiefs became independent and acquired the power of the estates which were till then being administrated by them as the chosen representatives of the Vijayanagara monarchs. The local chiefs in Chitradurga District too were affected by this phenomenon. The important families of such local chiefs who held sway over the district for nearly 200 years, until they were vanquished by Haider Ali of Mysore, are those of the Nayakas of Chitradurga, Harati, Hatti (Nayakanahatti) and Mattinamadu.

According to one of the tradition, three households belonging to the Kamageti family migrated from Jadikal-durga near Tirupati of Andhra Pradesh and settled down at Nirutadi near Bharamasagara of this district in about 1475 A.D. Later on, the son and the grandson of one of these men, named Hire Hanumappa Nayaka and Thimmanna Nayaka respectively, settled at Matti in Davanagere Taluk. This Thimmanna Nayaka was appointed by the Vijayanagara King first as the Chief of Holalkere, then of Hiriyur and finally of Chitradurga. After consolidating his position, Thimanna Nayaka fortified the Chitradurga hill and conducted himself in such a manner that a force was sent by the Vijayanagara King to ensure his obedience to the throne. According to another account, this Thimanna Nayaka is the one who came with a small

band of armed men from the hilly tracts near Tirupati and entered the service of the palegar of Basavapattana. Later on, when a quarrel arose he fled to Mayakonda and, when pursued, escaped to the jungles near Guntur of Andhra Pradesh. There, he collected a band of men, started plundering on all sides, moved back to this district again, erected a fort at a place called Rangapattana and intensified his activities. Being annoyed by his depredations, the palegars of the neighbouring areas such as those of Harapanahalli, Nidugal and Basavapattana united themselves against Thimmanna Nayaka and with the aid of the Vijayanagara troops marched on Rangapattana. At this, Thimanna Nayaka moved over to Chitradurga hills for cover. When besieged here, it is said, he distinguished himself as the hero of a most daring adventure by carrying off at night, the horse of Saluva Narasinga Raya, the Vijayanagara Prince who was the commander of the forces pitted against him. It is said that while unleashing the horse, he aroused the groom whereupon he hid himself amidst the litter around the horse to escape notice. The groom who came near the horse drove in the peg afresh for the heel ropes and while doing so, unknowingly sent the peg right through the palm of the hiding Thimanna Nayaka. The latter endured the pain in silence and subsequently freed himself and ultimately despite grievous injury carried off the horse. This proof of fortitude resulted in the conclusion of a peace agreement and appointment of Thimanna Nayaka as the Chief of Chitradurga. Later on, at the behest of the king, Thimanna Nayaka is said to have easily captured Gulbarga, which the Vijayanagara forces had failed to take even after six months. Thimanna Nayaka was succeeded by his son Obanna Nayaka who, later took the name of Madakari Nayaka, broke off his allegiance to the Vijayanagara empire and became an independent ruler. In 1602 A.D., Madakari Nayaka was succeeded by his son Kasturi Rangappa Nayaka. His reign which was about for 50 years was full of conflicts with the neighbouring chiefs. During the next 100 years the succeeding chiefs consolidated their position and by 1754 A.D., when Madakari Nayaka, the last, ascended the throne at the age of 12, Chitradurga had become a very powerful and independent state in the south. In their wars against each other during this period, the major powers like Haider Ali of Mysore and the Peshwas of Maharashtra sought for the help of Chitradurga Nayaka. First, he helped Haider Ali in the campaigns against Bankapur, Nijagal and the Marathas. However, with all his outward show of friendliness, Haider Ali appears to have nursed a consistent jealousy towards the Nayaka of Chitradurga and waiting for an opportunity to annex the chiefdom. In 1777 A.D., when Haider Ali was threatened with an invasion by the allied armies of the Marathas and the Nizam, the Nayaka of Chitradurga promised to help the allied forces against Haider Ali. As soon as he came to know about this change of alliance, Haider Ali marched upon Chitradurga and surrounded the fort. The Siege, which was maintained for several months without success, was lifted when the Nayaka agreed to pay a fine of thirteen lakh pagodas. The peace so bought by the chief was however short-lived, for soon after the conclusion of his campaign against the Marathas in 1779 A.D., Haider Ali again laid a siege

on Chitradurga fort, which lasted for several months. Ultimately due to the treachery of some of the officers on the Nayaka's service, Haider Ali succeeded in capturing the fort. The Nayaka and his family members were taken to Shrirangapattana as prisoners.

After the fall of Tipu Sultan in 1799, the British restored the kingdom to the Wodeyars of Mysore and the area presently included in Chitradurga district also became a part of the princely State of Mysore. The rest of the history of the district runs parallel to that of the entire erstwhile State of Mysore.

Administratively, the district has undergone several changes in the post-palegar period. Under the British management, the Chitradurga division included the districts of Chitradurga and Tumkur. In 1863, Chitradurga Division was broken up and while Chitradurga district was tagged on to the Nandidurga division. In 1879, the system of administration through Divisions was abolished and in 1882, Chitradurga came to be reduced to the status of a Sub-division under Tumkur District. In 1886, Chitradurga district was re-established. After several changes in the structure of taluks and sub-taluks till the mid-forties, the district administration has finally settled down with only one revenue sub-division and six taluks. The changes in the jurisdiction of the district during the intercensal period 1991-2001 are discussed separately.

Administrative setup and jurisdictional changes during the decade 2001-2011

DISTRICT HIGHLIGHTS – 2011 CENSUS

- Chitradurga with a total population of 1,659,456 holds the 17th position in terms of total population in the State.
- The district holds the 10th rank in terms of rural population and 21st in terms of urban population.
- Chitradurga district accounts for 2.7 percent of the total population of the State.
- With the decadal growth rate of 9.3 percent, it ranks 18th in the State in terms of decadal growth rate.
- The district with a Sex ratio of 974 holds the 20th rank in the State.
- The district with a Sex ratio of 947 among the child population in the age-group 0-6, holds the 19th rank in the State.
- The proportion of child population, (0-6 age-group) is 11.1 percent in the district and ranks 14th in the State.
- The district has a literacy rate of 73.7 percent and is placed at 16th rank in the State.
- The male literacy rate in the district is 81.4 percent and the female literacy rate is 65.9 percent.
- The male – female literacy gap in the district is 15.5 percentage points, which is higher than the male – female literacy gap registered by the State (14.4 percentage points).
- The Scheduled Caste population contributes 23.4 percent to the total population of the district and the Scheduled Tribe population contributes 18.2 percent.
- The district has registered a work participation of 51.6 percent and stands on the top position in the State.
- The work participation rates for Male and Female population are 61.1 and 41.9 respectively in the district.
- Chitradurga holds the highest female work participation rate in the State (41.9 percent).
- Among the total workers in the district, 77.9 percent are Main workers and 22.1 percent are Marginal workers.
- Major work force of 67.8 percent is engaged in Agricultural sector i.e., Cultivators (33.4 percent) and Agricultural Labourers (34.4 percent).
- Agricultural Labourers constitute 34.4 percent of the total workers in the district and the district holds 12th rank in the State.
- In the district 3.1 percent of the total workers are engaged in Household Industry and 29.2 percent are Other workers.
- About 48.4 percent of the total population in the district is non-workers.
- Chitradurga district with area figure of 8436 Sq.Km stands at 9th position in the State in terms of area.
- The population density for this district is 197 and it holds 26th rank in the State.
- There are 1063 villages, 6 Statutory Towns and 2 Census Towns in the district.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

District Primary Census Abstract
